WABAG JV wins INR 220 Crore JICA funded Ganga Action Plan Project in Varanasi

Chennai, India, Jan 04, 2015: VA TECH WABAG LIMITED, a leading Indian MNC in water and waste water treatment, won an order for a value of INR 220 crores for Design and Construction of 140 MLD Sewage Treatment Plant (STP) at Dinapur, Varanasi including Operation and Maintenance for ten years. The scope for WABAG includes Design, Engineering, Supply, Installation, Testing and Commissioning of the Sewage Treatment Plant whereas the civil construction will be carried out by the JV partner.

The order is part of JICA – Funded Ganga Action Plan Project and the implementation agency for this project is Ganga Pollution Prevention Unit of UP Jal Nigam, Varanasi.

WABAG would employ the Activated Sludge Process with Biogas based Power Generation for this project. This process will help the plant to generate power from biogas and the plant would largely be self-sustainable using this “Green Energy”. This will not only help the project to reduce its operational costs but will also reduce the carbon emissions and thus will qualify for carbon credits.

Commenting on the development, Mr. S Natrajan, Head – Sales, WABAG said “We are proud to be part of this Ganga Action Plan Project at Dinapur, Varanasi and this order once again demonstrates our proven capabilities in execution and operation of power neutral sewage treatment plants.”
