PRESS RELEASE**Goodluck India Bags Order****Worth Rs. 56 crores**

Ghaziabad, July 04, 2016: Goodluck India Ltd, an engineering product manufacturing conglomerate, has booked **order worth Rs. 56 crores in its structure division comprising of Rs.37 crores order from POWERGRID Parli Transmission Limited (a wholly owned subsidiary of Power Grid Corporation of India Limited) a Government Undertaking** for supply of Towers in the state of Maharastra and about Rs. 19 crores order from renewable energy.

The Indian Government mission bringing power to all and its emphasis to provide electricity in unelectrified areas will work in favor of company's growth plan. Adding to this, company has got significant lead in solar structure solutions in India's rising solar energy industry. Country is going from megawatt to gigawatt. Good Luck is adding a bit in this solar movement by producing & supplying solar structure solutions to upcoming solar parts & projects.

In March 2016, the company has completed capital expenditure of around Rs. 39 crores in its structure division. The new structure plant will boost revenue by at least 10%. This CAPEX basically is a part of the company strategy to shift its focus towards the high margin delivery of steel products like auto tube forging and structure steel

products. Good Luck has identified focus sectors like Auto, Energy, and Railway for improving the margin profile.

About Goodluck India :

Good Luck Group is an ISO 9001 certified organization, engaged in manufacturing and exporting of wide range of Automobile CDW Tubes, Forged Engineering Products, T&D Towers & Boiler Structure, Galvanized Pipes, Roofing Sheets & Annealed Sheets.
