Sub. : Press Release

Dear Sirs,

Please find enclosed herewith a press release announcing Company's partnership with Artificial Intelligence Leader Arago, a pioneer in artificial intelligence (AI) and leader in autonomous automation, to integrate Arago's general AI technology HIRO™ into its automation offering, TRON™ Smart Automation. HIRO is a unique problem-solving AI platform that dynamically reacts to a changing environment and is able to autonomously solve ambiguous and complex problems at every level of operations.

You are requested to take note of the same and inform accordingly.

Thanking you,

Yours faithfully,

For NIIT Technologies Limited

Lalit Kumar Sharma
Company Secretary & Legal Counsel

Encl: As above

NIIT Technologies partners with Artificial Intelligence Leader Arago

Noida / Frankfurt, 23 May 2017: NIIT Technologies, a leading global IT solutions organization has partnered with Arago, a pioneer in artificial intelligence (AI) and leader in autonomous automation, to integrate Arago's general AI technology HIRO™ into its automation offering, TRON™ Smart Automation. HIRO is a unique problem-solving AI platform that dynamically reacts to a changing environment and is able to autonomously solve ambiguous and complex problems at every level of operations.

On the partnership, Arvind Thakur, CEO NIIT Technologies said, "Our partnership with Arago will enable us to deliver a superior automation experience to our customers by bringing in cutting-edge machine reasoning technology optimized by machine learning."

"We are excited to partner with NIIT Technologies and support their clients to improve speed and flexibility in their business and IT Operations. HIRO goes beyond pre-fabricated solutions as it amplifies human knowledge through continuous self-learning and built-in self-optimization," said Chris Boos, CEO of Arago.

NIIT Technologies' TRON™ Smart Automation is an end-to-end automation platform, which consolidates innovative technologies, practices, and best in class tools for business transformation and improved experience. Integrating HIRO™ into the TRON™ platform will enable enterprises deliver superior business agility and self-enablement.

About NIIT Technologies

NIIT Technologies is a leading global IT solutions organization servicing customers across the Americas, Europe, Asia, and Australia. Differentiated on the strength of its industry expertise, NIIT Technologies services clients in travel and transportation, banking and financial services, insurance, manufacturing, and media verticals, offering a range of services including Application Development and Maintenance, Infrastructure Management, and Business Process Management. Focused on Digital Services, the Company is helping businesses design agile, scalable, and digital operating models. NIIT Technologies adheres to major global benchmarks and standards of quality and Information Security. For further information, please visit www.niit-tech.com.

About Arago

The sum of experience: Arago is a pioneer in the field of artificial intelligence (AI) that helps businesses optimize their business and IT processes through autonomous automation. Its commercially proven general AI platform HIRO™ autonomously manages and automates every process within a company, integrating machine reasoning and machine learning. Arago's mission is to guide its clients worldwide on their journey to becoming future-proof AI-ready enterprises. Founded by computer scientist Chris Boos, and based in Frankfurt and New York City, Arago is empowering clients to unleash the potential of their existing intelligence and promote innovation. Since 2014, leading global investment firm KKR has supported Arago's international expansion. For further information, please visit www.arago.co.
