NIIT Technologies wins 'Award for Innovation' in Outsourcing from Global Sourcing Association

London, UK | New Delhi, India, November 24 2016: NIIT Technologies Limited, a leading global IT solutions organization, today announced that it has been conferred with the Award for Innovation in Outsourcing by Global Sourcing Association (formerly known as National Outsourcing Association, NOA). The award recognizes NIIT Technologies' platform "FinGénie" providing Finance and Accounting Transformation Solution for Enterprises.

Kerry Hallard, CEO of the GSA UK, commented: "This was without a doubt the most competitive year ever in terms of submissions. Those who attended the awards ceremony were given the inside track on the very best examples of technology in outsourcing, but also relationship and contract management, innovation, service delivery and collaboration. I'd like to congratulate all those organisations who made the shortlist in the first place and, of course, the eventual category winners. This year we introduced an additional level in the judging process with the live presentations, which brought fabulous new insights to the projects and judging process. I would like to extend my appreciation to everyone who attended the event and roundly applauded all those businesses who took part."

Siddhartha Singh, Executive Vice President, NIIT Technologies commented, "This award acknowledges our commitment to create a service culture based on innovation, creativity, and a deep partnership with our clients".

To cater to the needs of the finance leaders, NIIT Technologies has developed a technology-enabled platform "FinGénie" that offers a comprehensive portfolio of traditional finance and accounting (F&A) services which help integrate key business processes in an organization.

The complete list of winners can be found [here](#).
