Mumbai, April 28, 2017: RPG Life Sciences Limited, part of the Rs 21,000 crore RPG Enterprises, has announced its audited financial results for the financial year ending March 31st, 2017.

The company, engaged in manufacturing and marketing of pharmaceutical products, posted a robust growth in profit before tax of over 64% to stand at Rs 13.76 crore as against Rs 8.39 crore in FY16. Net sales stood at Rs 292 crore as against Rs 251 crore for the previous year, a surge of 16%. EBIDTA for the year surged to Rs 27.71 crore as against Rs 19.32 crore for the last year, a growth of 43%.

"Despite the demonetization drive and the upheaval in the international market, we have recorded highest-ever growth in business. This year has been the year of consolidation and also of investing in businesses we believe in; we sold our biotech business in the beginning of this fiscal and concentrated on strengthening our formulations business. We also acquired seven prescription brands from Sun Pharma. I believe the best is yet to come," said Mr CT Renganathan, Managing Director, RPG Life Sciences Ltd.

Additionally, the pharma major also announced that it has received required approvals to sell a new product Nicorandil in the UK market through a registered partner. The international market contributes approximately 35% to the company's overall business. This year, the pharma major reported 23% growth in exports.

***The numbers mentioned in the report exclude revenues from Biotech business and exceptional income on sale of Biotech business.**
