TCS Recognized as a Leader for Large Payer ITO Relationships by Everest Group

Report Cites TCS' Scale and Technology Capability as the Source of its Market Success

NEW YORK | MUMBAI, January 27, 2016: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization, announced today that it has been rated as 'Leader and Star Performer' for large payer ITO Relationships by leading advisory and research firm, Everest Group, in its report, *"Healthcare Payer ITO Peak Matrix 2015."* Everest Group also noted that TCS has made big strides and has leap frogged into the 'leaders' quadrant by employing a customer centric strategy focused on national and regional health plans.

Everest Group analyzed the position of 20 service providers on the Everest Group Performance, Experience, Ability, Knowledge (PEAK) Matrix for Payer ITO Relationships. The PEAK Matrix is a framework to assess the absolute market success and overall capability of service providers, which are then divided into three categories based on market success and delivery capability. TCS' Leaders position in the report was earned by its market success, scale and strong technology capability characterized by the proprietary solutions in the payer space.

"The technology demand profile for Healthcare Payers is undergoing a radical change driven by regulation, consumerization, and disruptive digital innovation," said Jimit Arora, Vice President, Everest Group. "TCS' investments in creating a portfolio of offerings relevant to this complex demand scenario enabled its robust growth and market share expansion. That coupled with its above-average market growth, domain investments, and recent market success contributed to TCS' Leader and Star Performer designation on the 2015 Everest Group Payer ITO PEAK Matrix."

"Moving into the Leaders quadrant and being rated a Star Performer by Everest Group is a true testament to the value we bring to our customers," said Suresh Muthuswami, President of Insurance and Healthcare, TCS. "It is a powerful endorsement of TCS' commitment to customers and our unique ability to develop and deliver innovative solutions that address Healthcare industry challenges in this time of great change."
