Dear Sir/Madam,

Subject: Press Release

IMP COMMENCES PRODUCTION / ASSEMBLY OF KINETIC ENERGY TURBINE IN SILVASSA

First time in India these "Kinetic Energy Turbines" are being produced by IMP POWERS LTD. under the Licensing Agreement of SHP Germany. These 5 kW turbines are the answer to base load generation in India.

With the successful launch of 20 kW pilot project in NLC last year, IMP has launched 3 types of Turbines in India.

NLC "4 X5 kW Hydro Kinetic Project" commissioned in Oct. 2017, is a unique project and consists of 4 units of Kinetic Energy Turbine with 5 kW each powered by running water coming from cooling towers of Thermal Power plant and generated power is fed to the grid. There is huge demand for 5kW in stream Kinetic Energy Turbines.

Kindly take the above on your records and acknowledge the same.

Thanking you.

For IMP Powers Limited

Priya Shah
Company Secretary
