TCS Recognized as a Leader in Cloud Enablement Services by Everest Group

Report Cites Tata Consultancy Services End-to-End Mature Cloud Enablement Services Suite, Internally Developed IP for Cloud and Technology Alliances as its Key Strengths

NEW YORK | MUMBAI, March 19, 2018: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization has been recognized as a 'Leader' in Everest Group's report "Cloud Enablement Services – Market Trends and Services PEAK Matrix™ Assessment 2018[1]".

"Competitive differentiation in the Business 4.0 world will come from enterprises becoming smarter, faster and lighter. A cloud-first strategy is core to these imperatives," said Krishnan Ramanujam, President, Business and Technology Services at TCS. "Our leadership position is a testament to our investments and commitment in supporting our customers' transformational journeys."

TCS offers an end-to-end cloud services portfolio consisting of cloud advisory services, strategy and roadmap definition, assessment, deployment and implementation, workload migration and hybrid managed services, spanning public, private and hybrid cloud environments.

TCS has deep relationships with all leading cloud technology providers like AWS, Microsoft Azure, Google and others. In addition, for customers with special requirements, TCS' Enterprise Cloud Platform (ECP) offers a broad range of flexible private cloud infrastructure options, including PaaS. Its data services backbone is powered by the SMACK stack (Spark, Mesos, Akka, Cassandra, Kafka), a proven open source stack, that helps clients who have a need for big data, analytics, IOT, and streaming data workload requirements.

TCS has an extensive portfolio of intellectual property which is cloud based, with a proven record of enabling faster time to market, reducing risk and delivering business value. These are TCS' Advanced Drug Development Platform, ERP on Cloud, HOBS (Hosted OSS/BSS for CSPs), iON assessment platform, TAP™ for Procure to Pay, CHROMA™ for talent management, Intelligent Urban Exchange, and TCS BaNCS Cloud for Banking and Financial customers.

"Cloud is the underlying bedrock for enterprise digital transformation. As massive amounts of data flow across business processes, are processed into insight, and transformed into digital action points, modern cloud strategies must transcend traditional infrastructure silos. In a cloud native era, enterprises must partner with service providers that bring strong contextual knowledge of the client industry and the client's environment," said Chirajeet Sengupta, Partner, Everest Group. "TCS has been positioned a Leader in the Cloud Enablement PEAK Matrix™ as a result of its continued focus on creating innovative IP, strong ecosystem of technology partners, and relentless focus on driving client value through contextualized technology and ops transformation programs."

[1] Cloud Enablement Services – Market Trends and Services PEAK Matrix Assessment 2018: Containers and SDI Gathering Steam by Chirajeet Sengupta, Yugal Joshi, Ashwin Venkatesan, published on Dec 11th, 2017.

"Our extensive contextual knowledge of our customers' businesses, along with the investments we have made in building a wide portfolio of cloud solutions, including those with our alliance partners, products and platforms, positions us as a trusted partner to organizations in their cloud endeavors," added Krishnan Ramanujam.

About Tata Consultancy Services Ltd. (TCS)
Tata Consultancy Services is an IT services, consulting and business solutions provider that has been partnering with the world's largest businesses in their transformation journeys for the last fifty years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique, location-independent agile delivery model, a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 390,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $ 17.6 billion for the year ended March 31, 2017 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
