Mumbai, India (MarketWire)

Aurionpro Solutions Ltd (NSE: AURIONPRO) (BSE: 532668), a provider of domain focused technology solutions for complex business needs, announced its financial results for the third quarter ended December 31, 2014.

Q3 FY14-15 Financial Highlights:

- Total revenue for the period was Rs.172.10 Crores, up 5.89% YoY

"We are satisfied with our performance in this quarter. Traditionally, the third quarter is a soft quarter with Thanksgiving and Christmas holidays impacting business. The seasonality combined with unfulfilled demand in tight labour market conditions in the US contributed to a slow QoQ growth." said Samir Shah, CEO, "We are encouraged to see a strong surge in demand from our clients especially for our Enterprise Security and Innovation Lab offerings. The latter continues to find excellent adoption with three new clients in this quarter."

Management Update:

In line with its strategy to strengthen the management team, Hari Murthy, Member of the Board will assume an Executive Position as Executive Vice Chairman. The appointment will be effective 11th February, 2015. Hari is a senior executive with over twenty-five years of experience leading global technology companies in various CXO roles. As Executive Vice Chairman, Hari will focus on expediting Aurionpro's strategic growth initiatives.

"It is great to have Hari joining Aurionpro in a full time executive role. As a member of our board, he has been strong proponent of our vision for accelerated growth." said Paresh Zaveri, Chairman, Aurionpro, "With him as Executive Vice Chairman, we can accelerate our transformation into a high growth organization that will outperform the market."

"Aurionpro already has a track record of strong performance and innovation. And there is tremendous untapped opportunity in front of us." said Hari Murthy, "I believe in the vision of the management and look forward to actively driving the organizational strategies to fruition powered by speedy execution."
