Aurionpro**AURIONPRO STRIKES A PARTNERSHIP WITH INSPYRUS TO PROMOTE INNOVATIVE ACCOUNTS PAYABLE SOLUTIONS**

The strategic arrangement delivers the next generation of invoice automation solutions, allowing businesses to expand without growing their back office

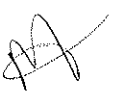

October 2, 2014 – San Ramon, CA (Marketwire)

Aurionpro (NSE: AURIONPRO) (BSE: 532668), a leading provider of enterprise-scale software and services, and Inspyrus, a provider of innovative business technology solutions, have signed a strategic partnership agreement to accelerate implementation of enterprise-scale accounts payable solutions. Under the terms of the agreement, Aurionpro will provide Oracle WebCenter Imaging delivery services, including the implementation of Inspyrus' "Next Generation Invoice Automation Solution" for WebCenter Imaging, on behalf of Inspyrus. This new partnership is expected to provide Oracle WebCenter customers with a cost effective way to accelerate WebCenter Accounts Payable implementations while reducing overall delivery investment and ongoing support costs.

"Aurionpro is widely known in the Oracle community for providing high quality implementation services focused on Oracle's WebCenter and Identity Management suites," commented Ed Jackowiak, Aurionpro's Executive Vice President of Sales, North America. "We are excited about our partnership with Inspyrus because we now have a way to deliver solutions rapidly to Oracle platforms including E-Business Suite, PeopleSoft, and JD Edwards."

"AurionPro is a great partner to deliver our Inspyrus Next Generation Invoice Automation Solution," said Nilay Banker, CEO of Inspyrus. "Their delivery resources, coupled with an incredible depth of functional knowledge, are unparalleled in the industry. Customers require assistance from resources with superior delivery expertise with complementary business process knowledge in Accounts Payable and related areas, including Expense and General Ledger, and the Aurionpro team consistently delivers successful projects."

"Customers often ask us how the overall WebCenter implementation time-frame can be compressed while still providing the Accounts Payable Automation functionality that their business users demand," reflected Sam Harp, VP of Aurionpro's WebCenter Practice. "We have been looking for a solution that would allow us to reduce implementation times and enable our customers to start obtaining ROI at an accelerated rate, and Inspyrus' Next Generation Invoice Automation Solution provides exactly that capability."

Aurionpro Solutions (NSE: AURIONPRO) (BSE: 532668) is a publicly traded technology company that helps Fortune 1000 companies to be more efficient through domain-driven software and consulting offerings. Employing more than 1,200 individuals across North America, Asia, and Europe, the company has been recognized by Deloitte, Forbes, and the 2013 FinTech 100 as one of the world's fastest growing technology companies.
