PRESS RELEASE

Experience thrill in a whole new dimension at Wonderla with 2 new rides

India's first ever Reverse Looping Roller Coaster, now open for ride at Wonderla, Bangalore

Bangalore, 4th April, 2016: This summer, Wonderla Introduces 2 brand new attractions like never before to its Bangalore park.

RECOIL

Wonderla introduces India's first ever reverse looping Roller Coaster - RECOIL, which will give a whole new experience of thrill. This high tech roller coaster is imported from the Netherlands, and has two track ramps that go up to 40 meters (think 11 storey building). The train climbs one ramp and accelerates to about 80 kmph in 1 second, before encountering a 'cobra roll' and a 'loop' in the tracks, climbing the second ramp, again to a 40 m height, and then doing it all over all again, only this time, BACKWARDS.

- Train capacity : 28 pax
- Number of inversions per ride : 6
- Max height of tracks : 40 meters
- Track length:285 meters
- Max speed: 80 kmph
- Made in the Netherlands

KORNETO

This is an extremely thrilling water slide attraction, where the riders accelerate down a steep 1.5m diameter tunnel at a speed of 35kmph into the mouth of a large 12m diameter funnel. The momentum allows the riders travel high up the opposing wall of the funnel and experience momentary weightlessness as they oscillate back and forth in the narrowing funnel and then exit into a splash at the base.

- Slide height of 9 meters
- Funnel Diameter of 12 meters
- 2 riders per cycle
