Tata Power treads ahead on digital; Introduces Safety Mobile App for Employees

National, January 20th, 2016: Tata Power, India's largest integrated power company, today introduced its digital interface by launching **'Tata Power Suraksha',** a safety mobile app for its employees. At Tata Power, safety is a core value and in pursuit of this belief and commitment, the company digitized its safety initiatives for its employees. Designed to foster high-level engagement and provide a user-friendly experience, the app aims at reporting and tracking any unsafe practice / scenarios.

'Tata Power Suraksha' provides an easy tool to the user for reporting unsafe scenarios. The application dashboard exhibits the four key verticals i.e. Post Issues, My Issues, Reports, Help & Feedback. The app allows users to register any issue or incident that they come across in real-time by uploading images, describing the same in the free text box while enabling them to directly submit the issue to the concerned authorities. The most significant feature of the app is that it allows users to define the risk of the issue/incident and the GPS tracker automatically provides the geographical location in latitude and longitude details. Tata Power Suraksha app is available for a free download from the Google Play Store available on Android handheld devices offering employees a fast and convenient way to report a safety concern.

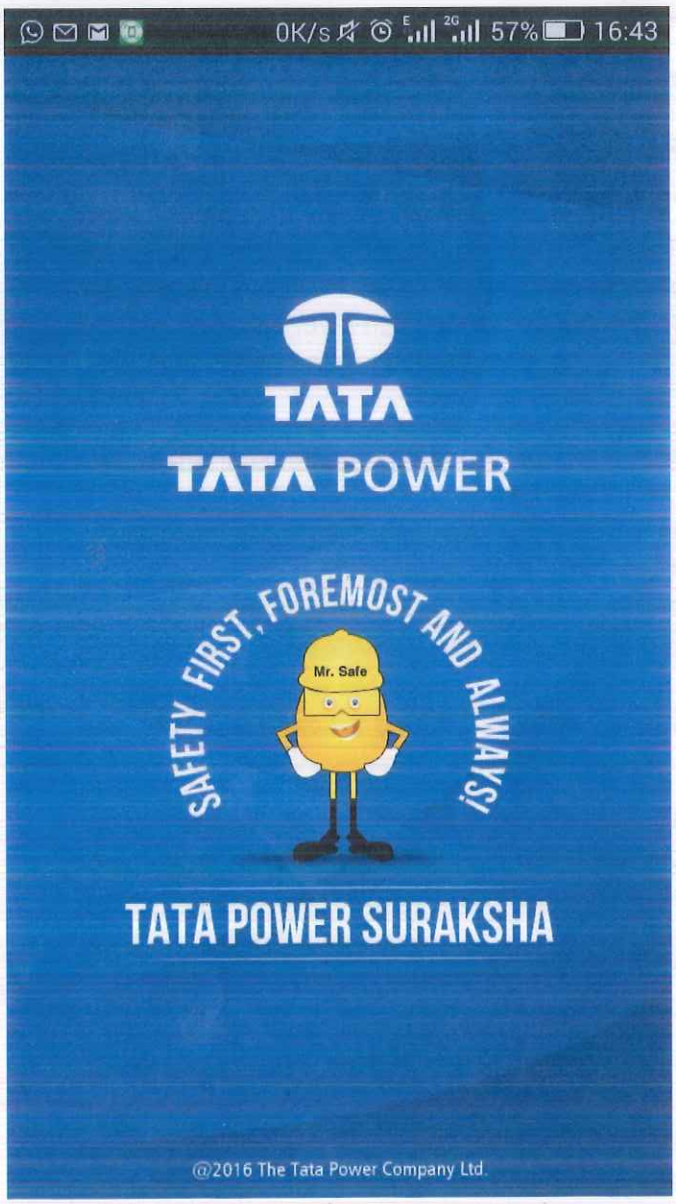

Speaking on the launch, **Mr. Ashok Sethi, COO & ED, Tata Power** said, "*In this digital age we are increasingly using smartphones & handheld devices to simplify our lives, and the all-new Tata Power Suraksha app is an innovative way to enhance employee participation towards strengthening the values of Safety. At Tata Power, Safety is a value and the Suraksha App is one more step that supports our thrive for improving Safety. We wish to remain a relevant part in India's growth story, and reach new heights through constant innovation and excellent services*".

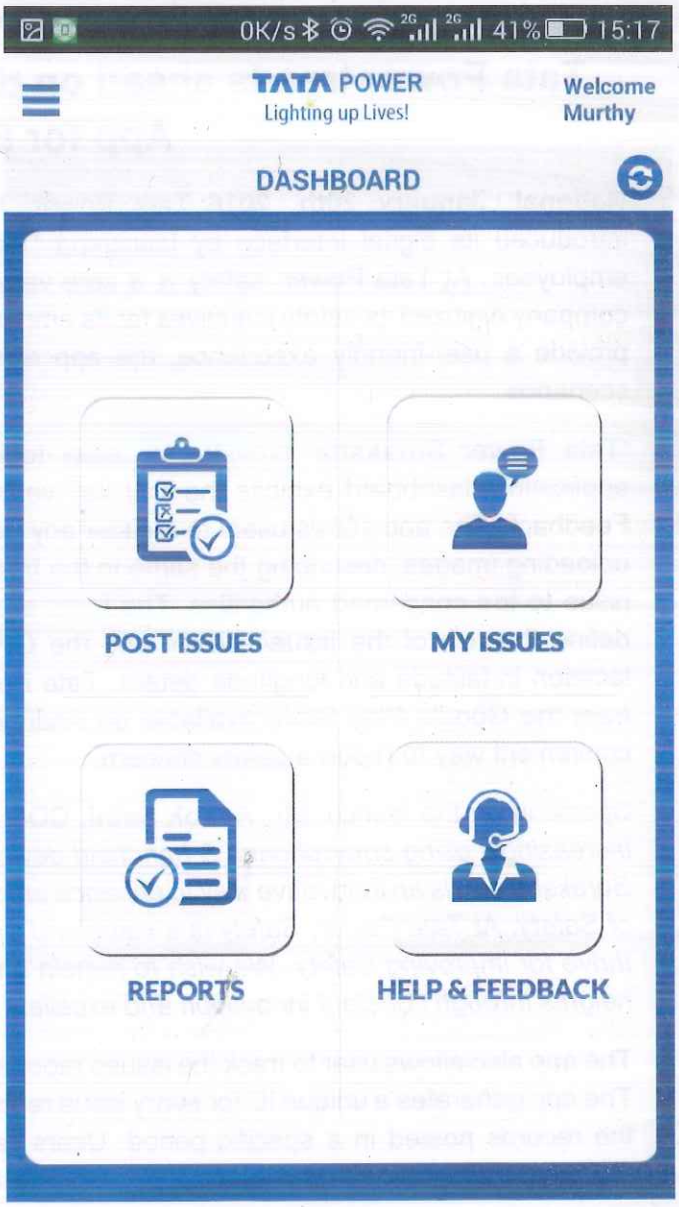

The app also allows user to track the issues reported by them along with the status update on the same. The app generates a unique ID for every issue reported and a date search option is available for viewing the records posted in a specific period. Users can also provide their feedback through the Help & Feedback option provided in the app itself which will further help in enhancing safety in the organisation.

Tata Power introduces Safety Mobile App for employees

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8699] MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed

the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
