Encl: As above

RPG Life Sciences Q3 FY15-16 profit up by 84.6% at Rs 4.67 crore

Mumbai, 2nd February 2016: RPG Life Sciences Ltd, part of RPG Group, today announced its unaudited results for the third quarter ending December 31st, 2015. The company's PAT increased by 84.6% to Rs. 4.67 crore as compared to last corresponding quarter. Similarly the revenue rose by 27.5% to Rs 72.02 crore. The EBITDA margins rose to 10.6% in Q3 FY15-16 compared to 3.75% (without considering reversal of provision for bad debts) in Q3 last year.

The company showed a 7.2% sales growth on quarter on quarter basis and the PAT rose to Rs 4.67 crore from Rs 2.56 crore. EBITDA for the quarter went up by 240 bps.

Sales for formulations division grew by 24% and that of global generics grew by 568%. *"We saw higher growth in the generics segment because of early dispatches of certain orders to take care of our planned facility shutdown in Q4. This has resulted in a higher sales and profitability in the current quarter"* CT Renganathan, Managing Director, RPG Life Sciences Ltd, pointed out.

Furthermore, *"we also introduced four new brands during quarter in domestic formulations, including Minmin PB, Cilren, Caspifunj and Fixpritant,"* he added.

The company has recently made it to the Guinness World Record™ for creating "WORLD'S LARGEST STRESS BALL MOOSAIC". The company gathered signed stress balls which were used as consent with all CKD patients and made a giant kidney-shaped mosaic. This Mosaic represents the largest patients and nephrologist community who have supported this noble cause.

About RPG Life Sciences Ltd:

RPG Life Sciences, a part of RPG Enterprises, is an integrated pharmaceutical company operating in the domestic and international markets in the Branded Formulations, Global Generics, Synthetic and Fermentation APIs space.
