TAKE Solutions' TAKE Mobility Framework 3.0 Achieves Certified Integration with SAP® Applications

Solution delivers integrated applications to customers through interoperability with SAP software

Chennai, India - February XX, 2015: TAKE Solutions today announced that the TAKE Mobility Framework 3.0 (TMF) has achieved certified integration with SAP® applications. TMF 3.0 has been designed to integrate with the SAP ERP application, enabling customers to use multiple mobile technologies like Windows Phone, Android, iOS and industrial ruggedized HHT devices to execute transactions in SAP software.

The SAP Integration and Certification Center has certified that TAKE Mobility Framework 3.0 integrates with SAP ERP 6.0, enhancement package 5 to exchange supply chain, manufacturing and plant maintenance data from SAP ERP through remote function and BAPI® calls with SAP return parameters. As a result of the certified integration, TMF 3.0 will integrate with SAP ERP and the customer's existing business applications to enable real-time retrieval and updates of data via mobile device.

"We are delighted to announce the successful achievement of SAP certification for the TAKE Mobility Framework," said **Govind Srinivasan, Vice President - Delivery, Technology Group, TAKE Solutions**. "The TMF enables customers to leverage their existing business assets, including SAP ERP and mobile technologies, and execute transactions in SAP software via mobile devices 'at the point of action.' The TMF software also enforces the relevant business rules and controls," he added.

TMF has been used to build different applications, including material traceability, plant maintenance and mobile extensions, for warehouse management systems running SAP software.

In addition, TAKE Solutions is also an SAP software solution and technology partner, under the SAP PartnerEdge® program.

About TAKE Solutions:

TAKE Solutions, Ltd. [BSE: 532890 | NSE: TAKE] is a leading global business technology company with domain expertise in Life Sciences (LS) and Supply Chain Management (SCM). TAKE provides cost-effective and comprehensive solutions for enterprises across diverse sectors including pharmaceuticals, high technology, consumer packaged goods, oil/gas and automotive. TAKE's SCM product suite includes distinct technology with embedded IP that spans enterprise mobility, trading partner collaboration and material tracking. In the LS domain, TAKE offers IP-based software and extensive knowledge-based solutions to enable efficient clinical, regulatory, safety and commercialization processes. TAKE has been recognized as a "Leader" in IDC Health Insights' "IDC MarketScape: Worldwide Life Science Drug Safety Services 2013 Vendor Assessment." TAKE's global headquarters is in Chennai, India; its U.S. headquarters is located in Princeton, New Jersey. TAKE has a proven track record as a trusted partner in delivering world-class solutions to more than 400 customers worldwide. For more information, please visit www.takesolutions.com.
