Energizing India

Press Release

SJVN Limited awards 50 MW Order to Inox Wind

- Inox Wind to supply and install 25 units of its 113 m rotor diameter turbines
- Project scheduled to be commissioned in Gujarat by November 2017
- Multi-year operation & maintenance contracts

Noida, 06th December 2016: Inox Wind Limited, India's leading wind energy solutions provider, has bagged an order for a 50 MW wind power project to be deployed in the state of Gujarat from SJVN Limited, a Category-I Mini Ratna CPSE and Hydroelectric power major. The Project is scheduled to be commissioned by November 2017 and will be executed on turnkey basis.

As part of the order, Inox Wind will supply and install 25 units of its advanced 2MW DFIG 113 rotor dia Wind Turbine Generators (WTGs) for SJVN Limited. Inox Wind's 113 meter rotor dia WTG is the newest variant of the company's market leading 2 MW platform. It significantly increases Annual Energy Production and is especially suited for low wind segments in the country.

"The prestigious order win from SJVNL is further testimonial of Inox's technological prowess, execution capabilities and services. Inox Wind's 113 meter rotor dia WTG, one of the most technologically advanced WTG variants in India significantly increases annual energy production and reduces the cost of energy. We are very pleased to partner with SJVN Limited in providing clean, sustainable energy and reducing the nation's carbon footprint and look forward to strengthening this relationship further in the future" said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

ABOUT SJVN Limited:

SJVN Limited, a Mini Ratna: Category-I CPSE was incorporated in 1988 as a joint venture of the Government of India and the Government of Himachal Pradesh. The present installed capacity of SJVN is 1,959.6 MW (comprising of 1912 MW Hydro + 47.6 MW Wind Power). Company has expanded its horizons and envisions developing itself into a fully diversified transnational Power Sector Company. The Company, at present, is implementing (under various stages of development) 11 nos. Hydro Power Projects totalling 3,237 MW.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures blades & tubular towers while hubs & nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades & towers, and will manufacture nacelles & hubs in the future. The facility at M.P., which will be amongst the largest in the world, has doubled Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
