PRESS RELEASE

For immediate release:

Moser Baer Solar Limited (MBSL) etches new commissioning benchmark for Indian solar sector

- Commissions a 32.2 MW in a record time of 39 days at Charanka Solar park, Gujarat
- 1.6 to 1.8 lakh units of clean energy is being pumped into the grid every day depending on Solar radiation

New Delhi, June 17, 2014: Moser Baer Solar Limited (MBSL), India's Number 1 solar EPC Company, etched a new landmark by commissioning a 32.2 MW solar farm in a record time of 39 days operating at an optimum generation efficiencies from the day 1 of its operations. The projects commissioned over 225 acres of land had multiple sub- contractors working round the clock to ensure timely completion of the project including getting it grid connected. The focus for the team management was to avoid wastage, enormous coordination, speed and managing the Installation like an Assembly line operation to ensure timely completion of the Project with precision planning.

Speaking on the occasion, **K.N. Subramaniam, CEO, Moser Baer Solar Ltd.** said, "The challenges were multifold like designing the solar farm as per the best irradiation level of the area movement of modules to the site in a short time, managing logistics, identifying right manpower and training them, connecting to the grid among others. What made it particularly challenging, the project was to be completed within 40 days! Our in-house designing experts and their understanding of the solar business helped us to commission the solar farm in less than the specified time. This experience sets a new benchmark in solar EPC and should augur well for the Indian players."

About Moser Baer Solar :

Moser Baer Solar Ltd. (MBSL) is a subsidiary of Moser Baer India Limited. The entity was launched in 2007 to provide EPC solutions for effective deployment of PV Systems. Today, MBSL is a key player in manufacturing world-class solar modules and supplying to customers across India, Europe and Japan. In addition, MBSL also provides EPC solutions for effective deployment of PV Systems and has recently emerged as the largest solar EPC player in India with more than 250 MW of installations across the length and breadth of the country. The PV Systems business has rapidly grown to a market leadership position in solar farms, roof-tops and off-grid applications in India. The business strategy is to straddle multiple technology platforms and to drive scale in a cost effective manner. MBSL was conferred with the prestigious "5 Star Rating" certificate by TÜV Rheinland for maintaining highest standards of quality in manufacturing for three consecutive years (2009- 2012)
