Dear Sirs,

Revised Press Release

We refer to our Press Release of even date titled "Tata Power consolidated power generation increases to 53,556 MUs in FY18"; filed with the Exchange today.

In the Press Release, the figure of 1.36%, as appearing in the first paragraph, should be read as 1.98%. The inadvertent error is regretted.

The revised Press Release is attached herewith.

Yours faithfully,
For The Tata Power Company Limited

Company Secretary

Tata Power consolidated power generation increases to 53,556 MUs in FY18

~Contributes to 4% of country's power generation requirements

~Total installed generation capacity now stands at 10,757 MW

National, 7th May, 2018: Tata Power, India's largest integrated power company, produced 53,556 million units of electricity in the financial year 2017-18 from all its units, ranging from thermal, hydel, wind and solar. It marks a rise of 1.98% in total electricity generated in the FY'18 as compared to 52,512 million units power generated in the previous fiscal.

Tata Power generated 14,255 million units of electric in the fourth quarter of the financial year ended March 31, 2018. As per the data available on the Ministry of Power website, the country's overall power generation stood at 1306.614 BU, which includes generation from grid connected renewable sources, as compared to 1241.689 BU produced in FY17. In comparison to India's overall power generation capacity, Tata Power's contribution stands at 4%, a significant percentage from an integrated power player.

Generation from primary stations for the quarter were as follows: Mundra reported generation of 26,686 MUs, while Maithon plant reported 7,406 MUs. Trombay Thermal Power Station generated 6,294 MUs, Jojobera Thermal Power Station generated 2,978 MUs and Haldia reported generation of 775 MUs Industrial Energy Limited reported generation of 2,592 MUs. TPREL generated 919 MUs through clean sources of energy (Solar & Wind) and WREL generated 1,688 MUs.

Mr. Praveer Sinha, CEO & MD, Tata Power said, *"Our endeavor is to serve the nation and be the important pillar for India's progress. Tata Power's mission is to make the country power sufficient and contribute towards government's initiatives and programmes, to make it a success. It is good that we ended the fiscal on a higher generation note. With a commitment to increase our generation output by 40-50% by 2025 through green and clean source of energy, we have developed a well charted growth strategy to fulfill it."*

Tata Power, together with all its subsidiaries and jointly controlled entities, has an installed generation capacity of 10757 MW (as of May 2018) as compared to 10,613 MW in FY17 from various fuel sources, such as thermal (coal, gas and oil), hydroelectric power, renewable energy (wind and solar PV) and waste heat recovery.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 10757 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 3417 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
