For TAKE Solutions Limited

P. Srinivasan,
Company Secretary

TAKE SOLUTIONS LIMITED CHENNAI

TAKE Solutions and Sparta Systems Sign Professional Services Partnership Agreement

~ To Offer Implementation, Validation and Consulting Services to Sparta Customers ~

Chennai, July 10, 2013 - TAKE Solutions Ltd. [BSE: 532890 | NSE: TAKE], a leader in the Life Sciences and Supply Chain Management domains, today announced its partnership with Sparta Systems, Inc., an industry pioneer and global leader in enterprise quality management software (EQMS) solutions. Through this partnership, TAKE Solutions will now be marketing and providing professional services for Sparta Systems' TrackWise® EQMS in the Indian and ASEAN markets. TrackWise® optimizes quality, ensures compliance and reduces costs and risk for world-class clients across a range of regulated industries.

Organizations in highly regulated industries are under pressure to maintain the highest level of quality in every facet of their operations, while at the same time reducing costs and maintaining margins. This is especially true in the case of life sciences companies. Irrespective of the size of the company, in order to compete effectively and withstand global regulatory scrutiny, such life sciences companies across the world need to implement best-in-class solutions to automate and streamline processes - and eliminate legacy and error-prone paper-based methods.

These organizations can benefit from a full complement of out-of-the-box quality and regulatory processes, built by domain experts using proven and effective industry best practices gained from nearly two decades of working with the most recognized and respected global life science companies. This offering is designed to help progressive companies to jump-start or expand their automated quality management systems with a rapid roll-out solution that will help them realize the fastest time-to-value from their software investment.

Ram Yeleswarapu, President & CEO, TAKE Solutions said, "This partnership with Sparta Systems, an industry pioneer and leading global provider of enterprise quality management software (EQMS) solutions coupled with TAKE's domain focus and delivery capabilities, will help us jointly provide value to our customers. We will enable our customers to achieve higher product quality and consistent processes, in line with TAKE's credo of improving outcomes in the Life Sciences domain."

Alvin Ng, APAC Regional Director, Sparta Systems, said, "This partnership with TAKE Solutions represents an important step in growing our local partner network and their strong reputation in the region, particularly in India, made them a natural choice. We look forward to a long and positive relationship providing customers with best in class solutions and a first rate professional services experience."

About Sparta Systems

Sparta Systems, an industry pioneer and leading global provider of enterprise quality management software (EQMS) solutions, enables businesses to safely and efficiently deliver their products to market. Its TrackWise® EQMS, a trusted standard among highly regulated industries, is used by quality, manufacturing and regulatory affairs professionals to manage compliance, reduce risk and improve safety across the global enterprise.
