for immediate use **PRESS RELEASE**

Tata Power achieves highest gross power generation of February in 2018 at 4647 Million Units

~ Witnesses 3% increase in gross generation vis-à-vis February 2017

National, 8th March 2018: Tata Power, India's largest integrated power company, has registered the highest ever gross electricity generation of February 2018 at 4647 Million Units. This increase in generation capacity marks the company's preparedness to meet the spurt in demand as the economy gathers steam, as well as the approaching summer season. Tata Power has demonstrated a 3% increase in gross generation capacity when compared to the same month last year where it generated 4518 million units.

Tata Power along with its subsidiaries registered strong operational performances across its plants to achieve this remarkable feat. All of its power generation stations, including Trombay, Jojobera, Haldia, Maithon, IEL, CGPL, TPREL, WREL, Cennergi, ITPC, Dagachu, Hydro, and TPCL Wind witnessed higher availability.

Commenting on this achievement, **Mr. Anil Sardana, MD & CEO, Tata Power**, said, "*At Tata Power, we are committed to delivering value to our stakeholders and the nation at large. Our increased generation in the month of February 2018 is yet another testimony to the importance we place on driving operational efficiencies, thereby improving our performance on a year on year basis. We are confident that our efforts in implementing world class technologies and processes in this direction will benefit the company in the years to come and enable us to achieve better generation consistently.*"

Tata Power has been focusing on building a healthy energy mix within its portfolio as well as augmenting its operational processes to ensure a sustainable future for the company and the nation. In line with this commitment, Tata Power will continue to work towards ensuring its renewable business maintains its position of being India's largest renewable energy company, while also implementing cutting edge technologies to improve its operational efficiency.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 10649 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 3310 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project and in Bhutan

through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
