Tata Power synchronises 67.5 MW Unit 2 of its 202.5 MW IEL Kalinganagar-Orissa project

Crosses the 9,100 MW mark in generation capacity

National, February 12th, 2016: Tata Power, India's largest integrated power company, through its joint venture company Industrial Energy Limited (IEL), today announced that the Company has synchronised the **second 67.5 MW Unit** of its 3 x 67.5 MW IEL Kalinganagar project. This development comes a week after the synchronisation of the project's 67.5 MW Unit 1. With this, Tata Power's total generation capacity has increased to **9,100 MW** from the previous 9036 MW.

The IEL Kalinganagar project is the 3rd unit of IEL after two operating units of 120 MW (Unit 5 & PH #6, Jamshedpur) based on the mixture of BFG, COG, and LDG, which is environment friendly and efficient.

Speaking on this milestone, **Mr. Anil Sardana, CEO & Managing Director, Tata Power**, said, *"It is indeed an honour to announce the successful synchronisation of the 2nd unit of the 202.5 MW IEL Kalinganagar-Orissa project. As per our commitment to sustainability, the technology used for the project is environment friendly and helps cut down the greenhouse gas emissions as compared to regular coal-fired power stations. As always, Tata Power remains commitment to its end-goal of supplying clean, abundant and affordable power to its communities. Also, it reaffirms our position as largest integrated power company in the country as Tata Power has crossed 9,100 MW in generation, has 2.2 Million customers in Retail distribution & 3 coal mines for security of fuel."*

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 9100 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
