Dear Sirs,

Inox Wind Bags 100 MW Repeat Order from Tata Power Renewable Energy Limited

Inox Wind Limited, maintaining its momentum as India's leading wind power solutions provider, has bagged a repeat order for a 100 MW wind power project at Rojmal, in the state of Gujarat from Tata Power Renewable Energy Limited (TPREL). The order is TPREL's fourth project with Inox Wind taking the cumulative orders placed with Inox Wind across various sites to more than 300 MW. TPREL is a 100% subsidiary of Tata Power and has ~215 MW of commissioned renewable assets, with another 250 MW under construction/on order. Tata Power, including TPREL's capacities, has a commissioned capacity of ~600 MW of Wind and Solar assets.

As part of the turnkey order, Inox Wind will provide TPREL with end to end solutions from development and construction to commissioning and providing long term operations and maintenance services. The repeat order involves supply and installation of 50 units of Inox Wind's best in class 2MW DFIG 100 rotor dia Wind Turbine Generator, proving the success of Inox Wind's technology which has been developed especially for Indian climatic conditions.

Inox Wind offers its clients total wind power solutions including wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services as well as post-commissioning support.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

(H. M. Mistry)

Inox Wind Bags 100 MW Repeat Order from Tata Power Renewable Energy Limited

Noida, 17th February 2016: Inox Wind Limited, maintaining its momentum as India's leading wind power solutions provider, has bagged a repeat order for a 100 MW wind power project at Rojmal, in the state of Gujarat from Tata Power Renewable Energy Limited (TPREL). The order is TPREL's fourth project with Inox Wind taking the cumulative orders placed with Inox Wind across various sites to more than 300 MW. TPREL is a 100% subsidiary of Tata Power and has ~215 MW of commissioned renewable assets, with another 250 MW under construction/on order. Tata Power, including TPREL's capacities, has a commissioned capacity of ~600 MW of Wind and Solar assets.

Inox Wind's Rojmal site is one of the largest wind farms in the state of Gujarat with a capacity of 400 MW. More than 140 MW of capacities are already operational at the wind park including 50 MW capacities of TPREL. The commissioned common infrastructure facilities at the site are capable of supporting power evacuation of 400 MW.

As part of the turnkey order, Inox Wind will provide TPREL with end to end solutions from development and construction to commissioning and providing long term operations and maintenance services. The repeat order involves supply and installation of 50 units of Inox Wind's best in class 2MW DFIG 100 rotor dia Wind Turbine Generator, proving the success of Inox Wind's technology which has been developed especially for Indian climatic conditions.

Inox Wind offers its clients total wind power solutions including wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services as well as post-commissioning support.

"The fourth order from an esteemed customer like TPREL underlines the strength of the growing partnership between the two companies and reaffirms customers' confidence in Inox Wind's 2MW platform. Repeat orders from one of the country's leading renewables players like TPREL corroborate Inox Wind's ability to provide world class technological solutions to its clients." said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

"*The 100 MW expansion of the Rojmal project is TPREL's fourth project with Inox Wind. We are confident that Inox will again deliver the project safely, timely and of top notch quality. We look forward to building a long and fruitful relationship with Inox on the strong foundation of the previous successful projects in Gujarat and Rajasthan.*" **Rahul Shah, Chief Executive Officer of TPREL** said in his statement.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades and will manufacture nacelles, hubs, and towers. The facility at M.P., which will be amongst the largest in the world, will double Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.

About Tata Power Renewable Energy Limited

Tata Power Renewable Energy Ltd. (TPREL) is a wholly owned subsidiary of The Tata Power Company Ltd (Tata Power). TPREL is Tata Power's primary investment vehicle for the clean and renewable energy based power generation capacity. TPREL's present operating capacity is 214 MW, comprising 160 MW wind and 54 MW solar, located in the states of Maharashtra, Gujarat and Rajasthan. In order to aggregate its clean and renewable energy portfolio, Tata Power has initiated the process to carve out around 500 MW of assets from its books to TPREL. TPREL is seeking to grow its portfolio in India and in select international markets through organic and inorganic opportunities.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [9036] MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
