## **Subex launches ROC Partner Settlement 10.1 Solution**

*Improve profitability through enhanced partner relationships*

**Bangalore, India** – Subex Ltd., a leading global provider of Business and Operations Support Systems (B/OSS) for Communications Service Providers (CSPs), has announced the launch of a new version of the industry leading Partner Settlement solution, ROC Partner Settlement 10.1.

ROC Partner Settlement 10.1 brings with it an all new GUI built for better usability and greater workflow efficiency. The solution focuses on purposeful personalization, with an intuitive web client, built for tailored user experience.

Intelligent and configurable alerts are now a part of the solution, which enables CSPs to proactively monitor the health of their business. ROC Partner Settlement 10.1 also provides an integrated business health snapshot facilitating business leaders to make important business decisions after analyzing the business impact of volatile rate changes, contract changes and traffic analysis.

The solution is now a part of the ROC 3.0 platform which is an integrated suite of products that provides capabilities going beyond traditional Partner Settlement and brings in numerous capabilities to optimize business processes and grow margins.

ROC Partner Settlement provides end-to-end coverage of Next Generation Wholesale Billing capabilities (Data Collection, Rating & Billing and Financials) under a single umbrella, hence making upgrades and maintenance easy. This flexibility ensures low cost of ownership both in terms of initial investment and ongoing maintenance costs.

Along with the above features and functionalities, the Android and iOS applications of ROC Partner Settlement 10.1 enable on-the-go alerting and decisioning, supported by clean and simple MIS charts and streamlined intra-operational communications options.

"ROC Partner Settlement allows service providers the freedom to experiment with new next-gen service offerings, without having to worry about the scalability of their billing function. It is a comprehensive solution that enables operators to model and analyze complex multi-partner revenue share contracts and assess the profitability before the actual contract is put into place. In the new version, we have focused on delivering an intuitive, workflow driven GUI that is crafted to meet your needs. This means, what you view on the application is what is exactly relevant to you and this is supplemented by an intelligent alert framework that allows you to define parameters that constitute a problem for you. In addition, we have also been able to further bring down the TCO with numerous architectural enhancements and optimizations. ROC Partner

Settlement is truly a solution that can help operators improve profitability with streamlined partnerships." said **Ashwin Chalapathy: Global Head - Portfolio Management, Managed Services & Consulting.**

#### About Subex Limited

Subex Limited is a leading global provider of Business and Operations Support Systems (B/OSS) that empowers communications service providers (CSPs) to achieve competitive advantage through Business and Capex Optimisation - thereby enabling them to improve their operational efficiency to deliver enhanced service experiences to subscribers.

The company pioneered the concept of a Revenue Operations Center (ROC®) – a centralized approach that sustains profitable growth and financial health through coordinated operational control. Subex's product portfolio powers the ROC and its best-in-class solutions such as revenue assurance, fraud management, asset assurance, capacity management, data integrity management, credit risk management, cost management, route optimization and partner settlement. Subex also offers a scalable Managed Services program with 30+ customers.

Subex has been awarded the Global Market Share Leader in Financial Assurance 2012 by Frost & Sullivan and has been the winner of Carriers World Awards 2015 for Best Security/Fraud solution, Telecoms Award 2015 for Advances in B/OSS, Pipeline Innovation Award 2013 in Business Intelligence & Analytics; Capacity Magazine Best Product/ Service 2013. Subex has continued to innovate with customers and have been jointly awarded the Global Telecoms Business Innovation Award in 2015 with Mobily; in 2014 with Telstra Global; in 2012 with Idea Cellular for Managed Services and in 2011 with Swisscom for Fraud Management.

Subex's customers include 39 of top 50 telecom operators\* and 7 of the world's 10 largest\* telecom companies worldwide. The company has more than 300 installations across 70 countries.
