Tata Power launches Electric Vehicle charging stations in Hyderabad

Expands mobility infrastructure network to make India EV ready

National , July 18, 2018: In line with Government of India's vision to achieve 100 per cent e-mobility by 2030, Tata Power, India's largest integrated power company, today announced setting-up of three fast charging Electric Vehicle (EV) stations at the Hyderabad campus of leading IT firm Cognizant. After recently launching Mumbai's first EV charging infrastructure, with nine charging stations across significant locations, Tata Power will expand to Hyderabad to encourage people to shift from vehicles run on fossil fuels to eco-friendly electric vehicles.

The two Tata group companies, Tata Power and Tata Motors, will jointly execute the consolidated e-mobility solution as part of Cognizant's 'Go Green' programme for its employees in Hyderabad. While Tata Motors will supply 10 Tigor Electric Vehicles (EVs), Tata Power will provide the necessary electric mobility infrastructure by installing three charging stations at the company's sprawling campus.

Mr. Praveer Sinha, CEO & Managing Director, Tata Power said, "With the deployment of the fast charging EV stations in Hyderabad we are happy to make the city more conducive towards a pollution free environment. This is in line with our endeavor to accelerate the adoption of electric vehicles across the country by providing the much-needed mobility infrastructure to support EV growth."

Commenting on the deployment of Tigor EVs, **Mr. Shailesh Chandra, President –Electric Mobility Business and Corporate Strategy, Tata Motors said,** "We at Tata Motors, are extremely committed to the Government's vision of e-mobility in India. We are excited to be associating with Cognizant to provide them with a comprehensive solution towards the goal of a sustainable future, with our 'One Tata' approach, involving our other group companies. We will continue to strengthen our portfolio of EV offerings across our passenger and commercial vehicles, to meet future requirements."

Recently Tata Power partnered with Tata Motors to offer EV solutions and make Maharashtra EV ready by establishing EV charging stations in the State for public use. Tata Motors Limited has signed a Memorandum of Understanding (MoU) with the Government of Maharashtra to support the Maharashtra Electric Vehicle Policy (2018) in accelerating the adoption of Electric Vehicles in Maharashtra.

About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 10757 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 30% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, microgrids and home automation & smart meters.

It has successful public-private partnerships in generation, transmission & distribution in India namely: 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With growing international focus, Tata Power's global presence includes strategic investments in Indonesia through a 30% stake in the coal company PT Kaltim Prima Coal (KPC); 26% stake in mines at PT Baramulti Suksessarana Tbk (BSSR); in Singapore through Trust Energy Resources; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through a 50:50 joint venture with ZESCO for 120 MW Hydro project; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project; in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its 103 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come.
