Dear Sirs,

Tata Power's Generation Capacity up by 5% in FY16 as compared to FY15

The Company today announced that it's generation capacity increased by 5 per cent in FY16 as compared to FY15. The Company, together with all its subsidiaries and jointly controlled entities, has an installed generation capacity of 9184 MW (as of May 2016) as compared to 8750 MW in FY15 (May 2015) from various fuel sources such as thermal (coal, gas and oil), hydroelectric power, renewable energy (wind and solar PV) and waste heat recovery, thereby, reinforcing its position as the largest integrated power company in India.

The consolidated generation through all its subsidiaries stands at 47,016 MUs (Million Units) in FY16. The standalone generation stood at 12,075 MUs in FY16.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

Tata Power's Generation Capacity up by 5 per cent in FY16 as compared to FY15

-On a consolidated basis generated 47,016 MUs through all its subsidiaries in FY16
-Standalone generation stood at 12,075 MUs in FY16

National, 24th May, 2016: Tata Power, India's largest integrated power company, today announced that the Company's generation capacity increased by 5 per cent in FY16 as compared to FY15. The Company, together with all its subsidiaries and jointly controlled entities, has an installed generation capacity of 9184 MW (as of May 2016) as compared to 8750 MW in FY15 (May 2015) from various fuel sources such as thermal (coal, gas and oil), hydroelectric power, renewable energy (wind and solar PV) and waste heat recovery, thereby, reinforcing its position as the largest integrated power company in India.

The consolidated generation through all its subsidiaries stands at 47,016 MUs (Million Units) in FY16. The standalone generation stood at 12,075 MUs in FY16.

Overall, in FY16, CGPL reported total generation of 25,680 MUs, while Maithon plant reported 7,172 MUs. TPREL, the renewable energy arm of Tata Power, generated 340 MUs that includes clean and green energy sources (Hydro, Wind & Solar). Total generation from clean sources was 3785 MUs.

Commenting on this development, **Mr. Ashok Sethi COO & ED, Tata Power**, stated, *"Tata Power has and will continue to serve the nation earnestly and continue to be part of India's growth story. We have in this quarter spread our footprint across the country and we are confident that in the next few years we will have greater contribution towards the Government and consumers' vision."*

The Company also has a significant presence in the clean energy space with a gross installed capacity of 1704 MW. ITPC, a 120 MW Hydro plant has been commissioned in Zambia in Q4FY16. The Company recently acquired 30 MW wind farm in Maharashtra thereby strengthening the clean energy portfolio. The Company also bagged 100 MW solar projects in Karnataka through its subsidiary Tata Power Renewable Energy Limited. Tata Power vision is to generate 30-40% of the Company's total generation capacity from non-fossil fuel sources by 2025.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 9184 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 1630 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for

development of 185 MW hydro project which is scheduled to be commissioned in 2016; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
