Wipro and Ramot at Tel Aviv University Partner for Joint Research in Emerging Technologies

Tel Aviv, Israel and Bangalore, India – July 5, 2017: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company and Ramot, the Business Engagement Center at Tel Aviv University (TAU), today announced a partnership for joint research in emerging technologies. TAU is Israel's largest institution of higher learning which is home to over 30,000 students studying in nine faculties, over 125 schools and departments across the spectrum of sciences, engineering, humanities and the arts.

The partnership envisages the creation of joint research capability at TAU, supported by Wipro to pursue core as well as applied research in fast-developing technologies in the Artificial Intelligence (AI) space.

"Wipro has a strong tradition of investing in innovation, and collaboration with academia for advanced research and development is a key element of our innovation programs. We are excited to partner with Tel Aviv University to jointly develop innovative IP in core AI technologies that will help us build advanced and differentiated solutions and services for our customers," said **K.R. Sanjiv, Chief Technology Officer, Wipro Limited.**

"Tel Aviv University is keen to collaborate with leading Indian multinational companies for research and innovation. Wipro is clearly a great fit with TAU's areas of excellence including, but not limited to, Machine Learning, Deep Learning and Sparse Representation techniques, towards developing cutting-edge platform solutions," said **Mr. Oren Calfon, VP Business Development, ICT, at Ramot.** "We look forward to growing the partnership between our organizations in the coming years."

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. A company recognized globally for its comprehensive portfolio of services, strong commitment to sustainability and good corporate citizenship, we have a dedicated workforce of over 170,000, serving clients across six continents. Together, we discover ideas and connect the dots to build a better and a bold new future.

About Ramot at Tel Aviv University

Ramot is the Business Engagement Center at Tel Aviv University, Israel's largest research and teaching university. Founded in 1956, Tel Aviv University is located in Israel's cultural, financial and industrial center. Rooted in both academic and corporate arenas, Ramot is uniquely positioned to cultivate the special relationships between these two compelling worlds, creating win-win connections that support fertile, groundbreaking research while providing companies with discoveries that give them a crucial competitive edge. Forward-looking and Cautionary Statements

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
