Wipro Launches Silicon Valley Innovation Center in Mountain View

Mountain View, California, USA – August 01, 2017: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting, and business process services company, today announced the launch of a multi-million dollar Silicon Valley Innovation Center in Mountain View, California. This state-of-the-art R&D and incubation hub is designed to develop and showcase next-generation technologies and solutions for enterprises.

Wipro has been making investments in emerging technologies so as to enable clients to become future-ready in this era of digital transformation. Wipro's Silicon Valley Innovation Center will serve as a showcase for the 'Art of The Possible' and demonstrate cutting-edge enterprise applications based on disruptive technologies such as Artificial Intelligence, Virtual Reality, Hyper Spectral Imaging, Machine Vision and Collaborative Robotics& Automation, to solve real-world business challenges faced by enterprises. The center will also serve as a value creator for technology start-ups, small and medium enterprises and entrepreneurs, enabling them to showcase and integrate their technology capabilities with that of Wipro and participate in the larger innovation ecosystem.

The center has also incubated a 'Digital Pod' and features a 'Rapid Proto Lab'. The pod is purpose-built for Wipro's digital strategy, design and engineering teams to work in a collaborative and adaptive workspace, along with clients. Wipro has 14 digital and design pods across the globe, including London, New York, Copenhagen, Oslo, Stockholm, Madrid, Munich, Sydney, Tel Aviv, Bangalore and Tokyo. Clients will also have access to immersive experiences and the ability to experiment with futuristic technologies in the 'Rapid Proto Lab'.

Wipro's Silicon Valley Innovation Center expects to finalize technology research partnerships with leading universities in the United States during the course of the current financial year. The center will also support the company's collaboration with technology start-ups in the Bay Area through Wipro Ventures, the strategic investment arm of Wipro Limited. Wipro Ventures is a USD 100 million fund that focuses on investing in early- to mid-stage startups and leverages Wipro's global reach and market knowledge to accelerate the growth of its portfolio companies.

Abidali Z. Neemuchwala, Chief Executive Officer & Executive Director, Wipro Limited said, "Our new center imbued with the culture, spirit and creative energy of Silicon Valley, the cradle of technological innovation, will design and deliver path-breaking solutions for our clients. Wipro is committed to working more closely with start-ups, academia and leading technology companies in the Bay area to help our clients achieve their desired digital transformation outcomes."

During the past decade, Wipro has invested over USD 2 billion in the United States. Wipro has over 40 facilities across 23 states in the U.S. The company has been focused on creating jobs in the U.S. underscoring its strategy to build a deep reservoir of local talent based out of centers close to its clients.

During the first six months of this calendar year, Wipro hired over 1,600 employees and today employs over 14,000 in the U.S., a majority of whom are U.S. locals. Wipro will continue to recruit from top universities and also hire experienced professionals to build on the momentum of hiring locally in the United States.

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. Forward-looking and Cautionary Statements

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
