Wipro Gallagher Solutions Announces HMDA Compliance Update

FRANKLIN, Tenn., August 29, 2017 – Wipro Gallagher Solutions (WGS), a Wipro Limited company and a leading end-to-end provider of lending technology products and services, today announced the release of its enhanced Home Mortgage Disclosure Act (HMDA) functionality in NetOxygen, which helps lenders comply with current and new collection and reporting requirements, prescribed by the Consumer Financial Protection Bureau (CFPB) under the HMDA Act taking effect from January 1, 2018.

WGS enables its customers to achieve full compliance with regulations by automating the completion of their Loan Application Register (LAR), based on data collected throughout the loan lifecycle. Wipro Gallagher Solutions' NetOxygen HMDA module helps lenders ensure data integrity by automatically validating all necessary demographic information prior to CFPB submission.

"We have updated our technologies and processes to ensure compliance with the upcoming reporting amendments so that our customers can confidently start collecting data and demographic information via our NetOxygen platform in advance of the rule mandate," he added.
