Press Release
March 22, 2018

Sub: CMI Limited, to enter into the elite group of Lead Sheated Cable

CMI limited, one of the leading players in the cable industry is totally geared up to meet the challenges in the future of cable industry. With a continuous focus on R&D and commitment to deliver best in class quality and service to the clients the company is in process of increasing its product portfolio by entering in to the niche market of LEAD SHEATED power, control instrumentation, signal fire survival communication based specialized cables for Oil, Petroleum and Gas based core industry, as well as for Marine based applications.

Low Voltage Lead Sheathed Cables are used mainly in the utilities and petrochemical industries owing to the lead sheathing's resistance to sulfide, water, oil and any corrosive chemicals found in the ground water. Low Voltage Lead Sheathed Cables have an extended lifespan, making them a reliable option for large-scale, infrastructure-related uses.

With this induction, CMI also enters into the specialized area of HV and EHV lead sheathed Cables and cabling system for all Transmission, Distribution, Industrial / major infra projects and smart city project areas in the domestic as well as international markets. At present there are very few players worldwide to make such type of cables, and at CMI, the trail run for the same has already started in its Baddi plant located in Himachal Pradesh.

According to Mr. Amit Jain – CMD, CMI Limited, "The Company is confident that with this enhanced product Portfolio of Lead Sheated cables conforming to VDE, BS, DIN, VG, BSEN, IEC, international standards their presence in international market as well, as special cable manufacturer in the domestic market will improve considerably.

About CMI Limited:
