Dear Sirs,

Inox Wind bags 50 MW order from Tata Power Renewable Energy Limited

Inox Wind Limited, India's leading wind energy solutions provider, has bagged an order for a 50 MW wind power project at Lahori, in the state of Madhya Pradesh from Tata Power Renewable Energy Limited (TPREL). The order is TPREL's third project with Inox Wind after two previous orders of 172 MW. TPREL is a 100% subsidiary of Tata Power and has ~300 MW of commissioned renewable assets. Tata Power, including TPREL's capacities, has a commissioned capacity of 500+MW of Wind and Solar assets. Inox will supply and install 25 units of its advanced 2 MW DFIG 100 rotor dia Wind Turbine Generators (WTGs) for TPREL, on a turnkey basis. The 100 rotor dia WTG has one of the highest swept areas that makes it ideally suited to maximise returns, especially in low wind areas.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

(H. M. Mistry)

Inox Wind Bags 50 MW Order from Tata Power Renewable Energy Limited

Noida, 12th October, 2015: Inox Wind Limited, India's leading wind energy solutions provider, has bagged an order for a 50 MW wind power project at Lahori, in the state of Madhya Pradesh from Tata Power Renewable Energy Limited (TPREL). The order is TPREL's third project with Inox Wind after two previous orders of 172 MW. TPREL is a 100% subsidiary of Tata Power and has ~300 MW of commissioned renewable assets. Tata Power, including TPREL's capacities, has a commissioned capacity of 500+MW of Wind and Solar assets. Inox will supply and install 25 units of its advanced 2MW DFIG 100 rotor dia Wind Turbine Generators (WTGs) for TPREL, on a turnkey basis. The 100 rotor dia WTG has one of the highest swept areas, that makes it ideally suited to maximise returns, especially in low wind areas.

Inox Wind will be responsible for the entire project lifecycle, from development and construction to commissioning and has also been contracted to undertake operations and maintenance services of the project for a multi year period, post commissioning. The 50 MW project will be a part of the "Inox Wind Park" of 200 MW capacity at Lahori, one of many such "Wind Parks" being developed by Inox across the country.

At each such wind park, Inox Wind is providing its customers with end to end solutions including wind resource assessment, building the power evacuation system, acquiring land, developing the entire site infrastructure, supplying the WTGs, erection and commissioning services as well as long term operations and maintenance services.

"The repeat order from TPREL has further boosted Inox's strong order book with major IPPs in India. TPREL is one of our most valued customers and an established player in the renewables space in the country. We are pleased that TPREL has again expressed faith in Inox's technology, capabilities and services and we look forward to strengthening this relationship further in the future. We are very happy to partner with TPREL in growing their wind energy portfolio and contributing to the nation's development in an environmentally responsible manner" said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

"*The 50 MW Lahori project is TPREL's third project with Inox Wind and its first in Madhya Pradesh. We are confident that Inox will again deliver the project safely, timely and of top notch quality. We look forward to building a long and fruitful relationship with Inox on the strong foundation of the previous successful projects in Gujarat and Rajasthan.*" **Rahul Shah, Chief Executive Officer of TPREL** said in his statement.

About Inox Wind:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with state-of-the-art manufacturing plants near Ahmedabad (Gujarat) for Blades & Tubular Towers and at Una (Himachal Pradesh) for Hubs & Nacelles. An upcoming integrated manufacturing facility at M.P., which will be amongst the largest in the world, will manufacture nacelles, hubs, blades, towers and double Inox Wind's manufacturing capacity to 1,600 MW per annum.
IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.
IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8669] MW in India and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tata hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come.
