Shanghai (China)/ New Delhi (India), July 28, 2015: NIIT, a global leader in skills and talent development, has launched its innovative and proven *Cloud Campus™* internationally, with it going live in China. This is a significant milestone in the proliferation of this scalable customer engagement and learning delivery platform. As part of this rollout in China, NIIT has extended the break-through Cloud Campus platform to support learners in Mandarin. Additionally, extensive feedback was taken from Instructors and Learners to ensure that the 6 unique Cloud Campus™ learning enablers were appropriately adapted keeping in mind preferences and learning styles of learners in China.

NIIT Cloud Campus™ enables students to learn from the best teachers irrespective of their geographical location. They can also get hands-on practice through lab exercises in machine rooms at the NIIT centers. It has an innovative 'Anywhere Lab' feature, which allows students to practice the application of concepts learnt in class, from any part of the globe, while chatting with experts to seek answers to their queries.

NIIT Cloud Campus™ ensures a consistent, high quality learning experience. Students benefit from Expert Instructors teaching from a central studio while simultaneously having access to facilitators present in their classrooms. Interactions are not limited to only the students in the same classroom – rather students can communicate and collaborate with fellow learners across all locations.

Speaking on the occasion of the first program launch from the Cloud Campus™ Studio in Wuxi, China **Mr. Prakash Menon, President, NIIT China,** said, ***"This is the start of a journey that will transform our distributed education delivery model in China."***
