Notes:

- 3.i Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. Ind AS 101 allows first-time adopters exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the exemption in its standalone financial results for its Property, Plant and Equipment, as well as Intangible Assets and Investment Properties (referred to as "fixed assets" in aggregate). The Company has opted to determine the deemed cost of such fixed assets as of April 01, 2015 to be represented by the fair value of the land and buildings and restating the other items of equipment in accordance with Ind AS wherein the Equipments were grossed up for the capital subsidies received in prior years (net of amortisation). Accordingly, the increase in the deemed cost of building and equipment resulted in higher depreciation charge for the period. The amortisation of the capital subsidy has been routed as other income, as applicable.
- 3.ii Under previous GAAP, the Company had charged off certain loan origination/upfront fees paid to the banks for facilitating the term loans, as finance cost in the respective year of incurrence. Under Ind AS, such financial liabilities, classified to be carried at amortised cost basis, have resulted in a change in the current period finance cost (net) with an adjustment to the retained earning balance as of April 01, 2015.
- 3.iii Other Ind AS adjustments mainly includes the effect of measurement of financial assets and liabilities, either at fair value or amortised cost etc.
- 3.iv The Company has recognised the deferred tax impact arising from Ind AS adjustments as well as evaluated the status of the deferred tax asset arising from unabsorbed depreciation existing as of March 31, 2015 not recognised as per previous GAAP in the absence of virtual certainty and has adjusted the same in the reserves as of April 01, 2015. Based on the utilisation of the unabsorbed depreciation during the period(s), such reversal of deferred tax asset is recognised in statement of profit and loss.
- 3.v The company uses derivative financial instruments(hedging instruments) to manage risks associated with foreign currency exchange fluctuations relating to certain highly probable forecasted transactions. The hedging instruments initially measured at fair value, and are remeasured at subsequent reporting dates. Under the previous GAAP, changes in the fair value of these hedging instruments designated and effective, as hedge of future cash flows, were recognized directly in a Hedge Reserve (grouped under reserves and surplus) until the occurrence of the forecast transaction at which time the same was recognized in the Statement of profit and loss. As per IND AS requirements changes in the fair value are routed through Other Comprehensive income, to be disclosed in the statement of equity as a Hedge Reserve. On occurrence of the forecast transaction, the effective portion of these derivatives are adjusted against the underlying hedged item and ineffective portion is recognized as expense in the Statement of profit and loss.
- 4 The Company has evaluated its operating segments in accordance with Ind AS 108, and has concluded that it is engaged in a single operating segment viz. Home Textiles, with a product base of different cotton and silk blended products, on the basis of decisions taken for allocation of resources and the internal business reporting system for evaluation of operational results.
