**Subject: Update on Operational Adjustments due to LPG Supply Constraints**

Dear Sir/Madam,

The Company wishes to inform that there have been intermittent constraints in the availability of LPG/ PNG/CNG for Industrial usage, which is an essential input for our manufacturing processes as well as our sub suppliers. This has led to operational disruptions in a limited way, during the current month.

The Company has been closely coordinating with suppliers and has implemented alternate production planning and other contingency measures to mitigate the impact. While these temporary constraints may have a limited effect on production schedules for the month, the Company expects to progressively align operations as supplies are likely to get stabilized shortly.

To the extent the situation persists, it may lead to impact on production & sales for the current month. The Company continues to monitor the situation and remains focused on maintaining uninterrupted continuity as our demands are continuing to remain robust and even increasing in many cases.

Kindly take the above information on record and oblige.

Thanking you
