Rainbow Children's Medicare Limited Expands Bengaluru Network with New Hospital in HRBR and Dedicated IVF Centre in Mahadevapura

- Commissions a 60-bed hospital in HRBR Layout, strengthening pediatric & perinatal care in North Bengaluru
- Launches a dedicated IVF centre in Mahadevapura under *BirthRight by Rainbow*, positioned as an extension of the Marathahalli hub
- Strengthens the hub-and-spoke network, expanding reach across high-growth urban corridors

Hyderabad, May 04, 2026: Rainbow Children's Medicare Limited (RCML), India's leading pediatric multi-specialty and perinatal care hospital chain, today announced the launch of two new facilities in Bengaluru, a 60-bed hospital in HRBR Layout and a dedicated IVF centre in Mahadevapura under its '*BirthRight by Rainbow*' brand. **With these additions, Rainbow now operates a network of ~600 beds across six hospitals, one outpatient clinic, and two dedicated fertility centers, further strengthening its position as the largest pediatric and perinatal care network in Bengaluru.**

HRBR Hospital

The HRBR hospital, strategically located along the high-growth Outer Ring Road (Hennur) corridor, is positioned within a dense and rapidly expanding residential catchment in North Bengaluru. Its proximity to Manyata Tech Park, one of the city's largest employment hubs, places it at the centre of a large, young working population with rising demand for high-quality pediatric and obstetric care

The 60-bed facility is designed to deliver comprehensive women and child healthcare services, including obstetrics and gynecology, neonatal and pediatric intensive care, 24x7 emergency services, and consultant-led specialty pediatric clinics. A highly qualified and experienced team of obstetricians and gynecologists, neonatologists, fertility specialists, and pediatricians have been onboard to ensure high standards of clinical care. The hospital is positioned to provide round-the-clock critical care while also catering to routine and preventive healthcare needs of the surrounding micro-market

Designed as a spoke within RCML's Bengaluru hub-and-spoke network, the hospital complements the Marathahalli hub, which anchors the company's Bengaluru operations. This integrated model enables strong referral linkages, clinical standardization, and efficient utilization across the network.

Mahadevapura IVF Centre (Extension of Marathahalli Hub)

Strategically located in one of Bengaluru's largest and fastest-growing IT corridors, the Mahadevapura IVF centre is designed to serve a young, affluent, and aspirational urban demographic with rising fertility awareness and demand. The Mahadevapura–Outer Ring Road micro-market represents a high-potential yet relatively underserved catchment for specialized reproductive care, making it a compelling expansion opportunity.

This is one of the most advanced fertility centres in the country, spanning ~10,000 sq. ft. and led by one of the most reputed consultants and her experienced team. As a focused extension of RCML's Marathahalli hub, the centre is designed to deliver superior reproductive outcomes, offering a comprehensive suite of services across diagnostics, assisted reproduction, and complex fertility treatments.

The launch of the Mahadevapura IVF centre marks another milestone in RCML's ongoing scale-up of fertility services under the BirthRight by Rainbow platform. With a network of 15 IVF centres, the company continues to strengthen its leadership in fertility care, with Bengaluru emerging as a key growth engine alongside Hyderabad.

Commenting on the development, Dr. Ramesh Kancharla, Chairman and Managing Director, said:
"We are pleased to expand our Bengaluru network with the launch of the HRBR hospital and the Mahadevapura IVF centre, further strengthening our presence in high-growth micro-markets. These additions enhance access to integrated pediatric, obstetric, and fertility services for a young and evolving urban population. Leveraging our hub-and-spoke model and the BirthRight by Rainbow platform, we continue to deliver consistent clinical outcomes with a strong focus on quality and specialization. This expansion reflects our disciplined approach to growth and commitment to long-term value creation."

About Rainbow Children's Hospital:

Rainbow network comprises 24¹ hospitals and 6 clinics across 9 cities, with a total bed capacity of ~2,435¹ beds. Our Pediatric services under "Rainbow Children's Hospital" include newborn and pediatric intensive care, pediatric multi-specialty services, pediatric quaternary care (including organ transplantation); whereas our women care services under "Birthright by Rainbow" offers perinatal care services which includes normal and complex obstetric care, multi-disciplinary fetal care, perinatal genetic and fertility care along with gynecology services.

Rainbow Children's hospital built on strong fundamentals of multidisciplinary approach with a full-time consultant led clinical service along with 24/7 commitment in a child centric environment. The company follows a hub-and-spoke operating model where the hub hospital provides comprehensive outpatient, inpatient care, with a focus on tertiary and quaternary services and the spokes provide primary, secondary and emergency care in pediatrics and obstetrics, large outpatient services and comprehensive obstetrics, pediatric and level 3 NICU services. This model is successfully operational at Hyderabad and is gaining traction in Bengaluru. The endeavor is to replicate this approach in Chennai and across the National Capital Region. Subsequently Rainbow intends to expand into tier-2 cities of Southern India.

Rainbow embraces a unique doctor engagement model, where doctors work exclusively on a full-time, retainer basis. The doctors work in teams and have 24/7 commitment, which is particularly important for children's emergency, neonatal, pediatric intensive care services and support pediatric retrieval services. The Company also operates the country's largest pediatric DNB training program in private healthcare, offering post graduate residential DNB and fellowship program.

¹ Including the HRBR Hospital, Bengaluru
