Rainbow Children's Hospitals expands Bengaluru footprint with a 90-bed hospital in Electronic City

- Opening of new facility strengthens presence in South Bengaluru
- Strategically located to serve Electronic City, Hosur belt and key industrial corridors
- Enhances access to comprehensive Pediatric and perinatal care in a high-growth micro-market

Hyderabad, January 28, 2026: Rainbow Children's Medicare Limited (RCML), India's leading pediatric multi-specialty and perinatal care hospital chain, today announced the launch of its 90-bed hospital in Electronic City, Bengaluru, marking its fifth hospital in the city.

Located in Electronic City, one of Bengaluru's key IT and industrial corridors, the hospital is strategically positioned to serve Electronic city, Hosur, and adjacent residential areas. The region has seen sustained population growth driven by expanding employment hubs, infrastructure development, and urbanisation, leading to increasing demand for specialized pediatric and perinatal healthcare services.

The Electronic City facility will operate as a spoke hospital aligned with RCML's existing hub hospital in Marathahalli, further strengthening the Company's hub-and-spoke model in Bengaluru. This model improves access to care, ensures continuity of treatment, supports 24x7 emergency services, and enables efficient referrals across the regional network. The addition underscores RCML's long-term commitment to expanding high-quality mother and child healthcare across key urban clusters.

The hospital will offer a comprehensive range of pediatric and perinatal services. These will include consultant-led pediatric care, neonatal and pediatric intensive care services, pediatric emergencies, and specialty pediatric clinics. Birthright offers comprehensive care in obstetrics and gynecology, fetal medicine and IVF. The hospital will be supported by Rainbow's established clinical protocols, full-time consultant model, and integrated care approach.

Commenting on the development, Dr. Ramesh Kancharla, Chairman and Managing Director, Rainbow Children's Medicare Limited (RCML) said, "The launch of our hospital in Electronic City marks another important step in deepening our presence in Bengaluru, one of our key focus markets. Electronic city and the Hosur belt represent a fast-growing corridor with a young population and increasing healthcare needs. This facility reflects our commitment to building trusted institutions that deliver consistent clinical outcomes, while bringing specialized pediatric and perinatal care closer to families. As we continue to expand thoughtfully across regions, our focus remains on long-term value creation, clinical excellence, and patient trust."

About Rainbow Children's Hospital:

Rainbow network comprises 23¹ hospitals and 5 clinics across 9 cities, with a total bed capacity of 2,385¹ beds. Our Pediatric services under "Rainbow Children's Hospital" include newborn and pediatric intensive care, pediatric multi-specialty services, pediatric quaternary care (including organ transplantation); whereas our women care services under "Birthright by Rainbow" offers perinatal care services which includes normal and complex obstetric care, multi-disciplinary fetal care, perinatal genetic and fertility care along with gynecology services.

Rainbow Children's hospital built on strong fundamentals of multidisciplinary approach with a full-time consultant led clinical service along with 24/7 commitment in a child centric environment. The company follows a hub-and-spoke operating model where the hub hospital provides comprehensive outpatient, inpatient care, with a focus on tertiary and quaternary services and the spokes provide primary, secondary and emergency care in pediatrics and obstetrics, large outpatient services and comprehensive obstetrics, pediatric and level 3 NICU services. This model is successfully operational at Hyderabad and is gaining traction in Bengaluru. The endeavor is to replicate this approach in Chennai and across the National Capital Region. Subsequently Rainbow intends to expand into tier-2 cities of Southern India.

Rainbow embraces a unique doctor engagement model, where doctors work exclusively on a full-time, retainer basis. The doctors work in teams and have 24/7 commitment, which is particularly important for children's emergency, neonatal, pediatric intensive care services and to support pediatric retrieval services. The Company also operates the country's largest pediatric DNB training program in private healthcare, offering post graduate residential DNB and fellowship program.

¹ Including the Electronic City
