Item No.5

Status report about the business operations of M/s. Rajvir Industries Limited and plan of action:

History:

1. History of the Corporate Debtor:

- a. Suryalaxmi cotton mills Ltd (SCML) was established in the year 1962 by Mr L N Agarwal. The company established a spinning mill for manufacture of various varieties of yarn and blended yarn at Pillalamarri road, Mahabubnagar.
- b. As part of expansion the company established a spinning mill in 1987 at Amangal, a dying plant at Edira in 1996 and Denim plant at Nagpur in 1997.
- c. For efficient management, the company floated a company in the name and style M/S Rajvir Industries Ltd and as a part of reorganisation transferred the Pillalamarri unit and the Dying plant at Edira to the newly floated company Rajvir Industries Ltd on 1st September 2004, through a scheme of demerger which was approved by the High court of Andhra Pradesh on 22.03.2005.
- d. The company in 2006 established one more spinning mill at Tandur with a capacity of about 30,000 spindles. Also expanded the same by another 30,000 spindles in 2009.
- e. The unit reportedly faced a setback as the promoters had problem in arranging sufficient working capital.
- f. The promoters defaulted to the Financial creditors and the FC's tried to help revive the CD through a CDR mechanism way back in 2014.
- g. The promoters failed to honour the commitments to the FC's and SBI the lead consortium member filed petition under Sec 7 of IBC 2016 in NCLT Hyderabad way back in April 2019. The promoters appealed to the Hon'ble Adjudicating Authority that they are working on a scheme of settlement/arrangement, hence long rope was extended by the NCLT and the admission took place finally on 26.04.2021.

RAJVIR INDUSTRIES LIMITED

- iii. The Unit is operating between 10 - 15% capacity for more than a year.
- iv. There is hardly any working capital, and the operations are carried out with cash payment basis only.
- v. The promoters informed that the market is improving and they are hopeful of scaling up the operations.
- vi. The IRP noticed that the sales revenue is less than the variable cost, hence feared continuing the operations might burden the FC's.

Edira Plant:

- 4. The undersigned also came to notice and learn that:
 - a. Part of the Edira Plant land is assigned land and that there is issue to the title. An application made by the CD is pending which permits Govt to alienate the land on payment of market rate as determined by it. **The IRP reached out to the district revenue authorities, held discussions with and on their advise is reviving the request for alienation of the ceiling surplus land within the Edira plant.**
 - b. There is no power and the security is depending on a small solar panel that supports a single bulb for lighting purpose.
- 5. Called for a meeting of FC's on 05.05.2021 since the IRP noticed that:
 - i. The sales revenue from the operations is less than the variable cost.

 - iii. The continuation of the operations might burden the FC's.

The office of the CD furnished some last-minute information:

- iv. The investment in working capital(gross) is about Rs 8.5 crores reflected by way of stocks of about Rs 6.50 crores and receivables of about Rs 2.20 crores.
 - v. About more than 80% of stocks and receivables are non-moving.
- The FCs after deliberations advised the IRP to continue the operations in view of the spirit of the IBC 2016.

OFFICE OF THE INTERIM RESOLUTION PROFESSIONAL

RAJVIR INDUSTRIES LIMITED

6. The IRP continued his quest for information he still is of the opinion that the company has:
- High cost of Variable cost by way of excess staff both at the Factory, Tirupur the marketing hub and the Register office at Secunderabad.
 - The CD is producing too many varieties of color yarn. Each order is tailor made and the company stashes blended Raw material and surplus yarn produced against the order as the market accepts only 5% variation and not beyond. This additional cost is not considered while accepting orders.
 - Before placing an order, the buyer places a sample order which will be very small order of about 10-25 kg, though the company has a policy of charging 25% premium on sample orders, the cost of manufacturing the same is always unprofitable and the company executes about 50 to 100 such sample orders.
 - Overall, the operations of the CD are not profitable, and the revenue is not covering even the variable cost.
 - The IRP will be appointing professional cost accountants to make a study and report on the ways to improve the profitability of the operations.

The pandemic and Lockdowns:

7. Operations got a further hit due to lockdown:
- Majority of the produce of the CD are marketed in Tirupur the knitting hub of India. The Tamilnadu Govt declared lockdown, however permitted export units to function.
 - The undersigned issued passes to all the marketing staff and ensured the operations at the Tirupur are continued without interruption.

OFFICE OF THE INTERIM RESOLUTION PROFESSIONAL RAJVIR INDUSTRIES LIMITED

- c. The manufacturers themselves, voluntarily declared solidarity to the cause of isolation by shutting the operations.
- d. The TN govt extended the lockdown till 5 of June 2021 and modified the GO of lockdown prohibiting operations.
- e. Telangana Govt also imposed lockdown on 12th May 2021 however permitted manufacturing activity in the state. The undersigned issued passes to all the staff (both at the RO & Factory) and auto passes to workers and ensure the operations are continued.
- f. Lockdown is expected to be extended at least up to 5th June 2021, pan India.

Plan of action:

8. Strategies for keeping the CD as "Going Concern":

- a. The IRP reached out to Textile Manufacturers through APTMA and its counterpart Telangana Textile Manufacturers.
- b. Reached out to the agents of the CD and the marketing staff trying to reach to dealers to give conversion orders as per market practice.
- c. Apart from continuing the present "made to order" operations which are hovering between 60 to 90 tons per month, it is contemplated to:
 - i. Produce polythene yarn on continuous basis of about 6 ton per day by rationing the available resources. Which will keep one of the three units fully occupied.
 - ii. accept orders up to 10 ton per day apart from the above. (statement detailing the profitability from each plan attached -1)

Court cases:

9. About 60 court cases in various forum are pending. A statement detailing the status of the court cases and the action proposed is attached -2.

OFFICE OF THE INTERIM RESOLUTION PROFESSIONAL RAJVIR INDUSTRIES LIMITED

Security :

10. The company at present is using a few workers at MBNR as security. At Tandur they deployed some people as security and appointed on Mr Ram Reddy an employee to supervise the security of Tandur Plant. The Edira Plant is under the control of SBI and is protected through a agency.

The undersigned approached a security agency (whose services are deployed at one more assignment controlled by the undersigned), on inspection the agency agreed to provide security service at the following prices:

Plant	supervisor	guards
MBNR	1	1+4
Edira	1	3
Tandur	yet to receive the quote	

The agency quoted Rs 21,000. The undersigned is paying about 16,000 per guard. The security will be finalised in due course.

The committee is requested to deliberate upon:

1. The strategy to add polyester yarn manufacturing on continuous basis or to take up contract manufacturing.
2. To appoint security at all the three plants.
