Business Performance: Q2 FY27

The **Crop Care business** recorded topline growth of **4%**, primarily driven by **17% growth in the B2B segment** with a strong recovery in CSM portfolio. Domestic Formulations (B2C) remained flat year-on-year, supported by **16% growth in herbicides**, while insecticides registered flat growth. During the quarter, in the Crop Care category, Rallis launched four new products—Silentra (Insecticide), Marcellus (Fungicide), Blitox Super (Fungicide) and Trynage (Herbicide). The new products cater to critical crop-pest segments like Rice BPH and sheath blight segments, sugarcane herbicide and disease control in key horticulture crop.

Management Comment

Weather-related disruptions and delayed sowing continued to impact market demand during the quarter/season. We remain focused on improving market execution, driving cost efficiencies and strengthening customer engagement to navigate these challenges and enhance business performance.
