Rationale

ICRA has withdrawn the ratings assigned to the bank facilities of Rama Steel Tubes Limited at the company's request and based on the no objections certificate (NOC) received from the bankers, and in accordance with ICRA's policy on withdrawal. ICRA does not have information to suggest that the company's credit risk has changed since the time the ratings were last reviewed.

The key rating drivers, liquidity position, rating sensitivities have not been captured as the ratings are being withdrawn. The previous detailed rating rationale is available at the following link: [Click here](#)

Complexity level of the rated instruments

Instrument	Complexity indicator
Long-term fund-based – Cash credit	Simple
Short-term – Non-fund based - ILC/FLC and BG	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
