Ramco migrates its ERP solution to Microsoft's SQL Server 2012

New Delhi, India – April 29, 2013: Ramco Systems, an enterprise software product company focused on delivering ERP on cloud, tablets and smartphones announced its adoption of Microsoft's SQL Server 2012. This solution will offer huge cost benefits and time savings as it is extremely simple to install and businesses can transition from their legacy systems to full-blown ERP solutions in a few weeks. Ramco's relationship with Microsoft's technology offering started 15 years ago when Ramco's first full-suite ERP product was launched in 1997.

Ramco has been using Microsoft technologies to technically enrich the offerings and is amongst the first to move its enterprise application to SQL Server 2012. The company is also enrolled in Microsoft's TAP program and is testing its new in-memory technology, codenamed 'Hekaton,' that will be integrated into the next SQL Server database.

Commenting on the occasion, **Mr. Virender Aggarwal, CEO, Ramco Systems**, said "Ramco's association with Microsoft is a long-standing one. We are happy to renew and extend this partnership that will benefit both of us. As a company, we are always focused on adopting and upgrading to the latest technologies and ensuring that our customers reap the benefits of technological advancements. By migrating to the new SQL Server 2012, we hope to see performance improvement and the ability to adapt to the market needs, at a faster pace."

Mr. Sanket Akerkar, Managing Director, Microsoft said, "We are excited that as the next step in our long standing business relationship, Ramco has chosen to deploy SQL Server 2012, a cloud-ready information platform for their ERP database needs. We are very confident that SQL Server 2012's cloud-ready deployment, high-availability features and blazing fast performance will provide value to both Ramco Systems and its' customers".

SQL Server 2012 helps meet industry requirements for mission critical availability while enabling blazing-fast data warehouse query performance. SQL Server 2012 also helps customers expand beyond the database with a cloud-ready information platform to quickly create and scale innovative Hybrid IT solutions across server, private or public cloud.

With Ramco solution, companies can easily integrate all functions and processes within the organization without worrying about back-end infrastructure resources or technology upgrades. It offers customers a rich user-interface and a unique set of extension/customization capabilities to personalize and meet their business requirements with ease.

About Microsoft

Founded in 1975, Microsoft (NASDAQ "MSFT") is the worldwide leader in software for personal and business computing.
