Management Commentary

Commenting on the results, Mr. Sunil S Nair, Chief Executive Officer of Ramky Infrastructure Limited said, *", Q2 FY27 reflects our continued focus on strengthening our position in investor – operator model in industrial parks, water and wastewater, urban infrastructure & sustainable income. Our strong performance is reflected in excellent execution discipline, with margins continuing to remain in line with our growth plan with consolidated revenue growing 28% year-on-year.*

Looking ahead, the Government's continued focus on infrastructure development and increasing private sector participation presents a significant opportunity across our core businesses in industrial parks & water and wastewater segments. Backed by strong execution capabilities, a healthy balance sheet, and strategic clarity, we are equipped to capitalize on these opportunities.

Our selective approach is to bid for projects of an investor–operator model with sustainable cash flows, niche jobs that fall in our focus area and enable us to deliver value. Supported by a well-diversified order book of over ₹12,000 crore, we remain confident of delivering on our medium-term growth and long-term growth profitable aspirations to contribute sustainable growth to the nation."

Mr. Rayapudi Sravanth, Chief Financial Officer of Ramky Infrastructure Limited said, *"The quarter witnessed a healthy growth in consolidated revenue and profit after tax compared with the corresponding period of the previous year. During this half year, Revenue growth across both standalone and consolidated operations demonstrates the scale of execution, while the year-on-year movement in consolidated half-year profitability underlines the importance of maintaining a close focus on project economics, costs and working capital. We remain committed to financial discipline, prudent capital allocation and sustainable execution as we pursue our business priorities."*

Business Outlook

Ramky Infrastructure will continue to focus on execution across the investor–operator business model for its infrastructure portfolio, operational efficiency and disciplined financial management. The Company will evaluate opportunities in its established areas of core expertise in industrial, water & wastewater and pursue overseas business opportunities in line with its capabilities and strategic priorities.
