Bumper Dhanteras: Carmakers to deliver over 70,000 vehicles

41,000 units were delivered last year

VIKRAM CHAUDHARY
New Delhi, October 29

CAR DELIVERIES BY automakers on Dhanteras 2024 are set to exceed 70,000 units, significantly up from last year's 41,000 deliveries, according to estimates from manufacturers, dealers, and analysts.

Maruti Suzuki expects to deliver between 30,000 and 32,000 cars during this Dhanteras, representing a 30-39% increase over the 23,000

vehicles delivered last year. Partho Banerjee, senior executive officer of marketing & sales at Maruti Suzuki India, explained that with Dhanteras extending over two days this year (October 29-30), some deliveries will continue into the morning of October 30. "On October 29 alone, we surpassed last year's Dhanteras sales and expect to sell another 8,000-10,000 cars on October 30, bringing total Dhanteras deliveries this year to over 30,000-32,000," Banerjee said. "This strong demand has boosted Maruti's October sales, which are likely to set an all-time monthly record, surpassing the

previous high of 191,476 cars sold in October 2020? He added that the five-day Dhanteras-Bhai Doo period is expected to be a record this year. The second-largest

automaker, Hyundai India, did not disclose specific Dhanteras sales figures, as it is in a 40-day "silent period" following a recent stock listing. Last Dhanteras, Hyundai delivered

10,293 cars, and industry analysts estimate that it would have easily crossed the 10,000 mark again this year. Tata Motors, the third-largest carmaker, expects to

deliver over 15,000 vehicles on Dhanteras. Shailesh Chandra, MD of Tata Motors passenger vehicles and Tata Passenger Electric Mobility, highlighted a 30% year-on-year increase in October registrations, predicting this to be a record month for the company. "As a result, this October, the total registrations for Tata Motors are expected to be the highest ever for the company," he said. "On Dhanteras, we will be delivering more than 15,000 vehicles, on the back of robust demand for the entire portfolio, including new launches."

Dhanteras figures analysts believe deliveries were "substantial" due to high demand for new models like the XUV 3XO and Thar Rox. The XUV 3XO is attracting around 20,000 new bookings per month, and the Thar Rox saw 176,000 bookings within an hour of its October 3 launch.

Delhi-NCR on Dhanteras, said that it expects to "deliver an impressive number of EVs across the country in a single day." Satinder Singh Bajwa, chief commercial officer, JSW MG Motor India, said "this achievement highlights the growing demand and popularity of the company's EVs—Windsor, ZS EV and Comet". Complete Dhanteras sales numbers are expected by the evening of October 30. Dhanteras figures reflect pre-booked deliveries rather than on-the-spot purchases.

BEATS ESTIMATES

Marico Q2 profit up 20% to ₹423 crore

VIVEAT SUSAN PINTO
Mumbai, October 29

CONSUMER GOODS MAJOR Marico reported a nearly 20% year-on-year rise in consolidated net profit for Q2 FY25 at ₹423 crore on Tuesday, surpassing market expectations. Bloomberg analysts had estimated net profit at ₹389 crore. Revenue for the quarter grew 7.6% year-on-year to ₹2,664 crore, with underlying revenue growth at 5% and price-led growth at nearly 3%. The reported revenue closely matched Bloomberg's forecast of ₹2,684 crore.

Earnings before interest, tax, depreciation and amortisation (Ebitda) rose 5% year-on-year to ₹522 crore, just shy of Bloomberg's ₹530 crore estimate. Advertising and promotional expenses increased 8% year-on-year, leading to a 50 basis-point drop in Ebitda margins to

19.6%, down from 20.1% in the same quarter last year. Marico noted stable demand trends for the quarter, with rural markets growing at twice the pace of urban areas on a year-on-year basis. Price increases, particularly in hair oils, helped offset rising

commodity costs. The company also reported that over 80% of its portfolio either gained or maintained market share and penetration on a moving average total (MAT) basis. Marico expanded Project Setu, a direct distribution initiative launched in Q1 FY25, to four more states, bringing the total to 10. The initiative aims to enhance direct reach, market share, and assortment levels in urban and rural areas.

"In addition to improved direct reach and weighted distribution, Project Setu will drive market share gains across categories in urban and rural markets, while enhancing assortment levels in urban stores, enabling diversification and premiumization in the domestic business," the company said. Marico added that it would continue leveraging pricing power across key brands to manage rising input costs.

Ninjacart sees 74% jump in FY24 revenue

FE BUREAU
Bengaluru, October 29

FRESH PRODUCE SUPPLY chain startup Ninjacart has reported a 74% increase in operating revenue for FY24, reaching ₹2,002.7 crore, up from ₹1,153.4 crore in FY23. The company also reported a 20% reduction in net losses, which fell to ₹259.6 crore from ₹326.3 crore in the previous fiscal.

The company attributes this improved financial performance to operational cost-cutting and increased business volumes. According to Ninjacart, it leveraged AI-driven solutions for quality assessment, dynamic pricing and waste reduction, while its proprietary supply chain technology enabled end-to-end traceability. These measures helped the company achieve variable supply chain costs and profitability in key markets.

Ninjacart's portfolio includes several targeted services: "Ninjacart for Retailers" for small business growth, "Ninja Mandi" for traders, "Ninja Kisaan" for farmers, and "Ninja Kirana" for local shops. The introduction of premium fruits and vegetables has also
