RateGain Launches Rev-AI Clarity, a Revenue Assistant for Car Rentals

Rev-AI Clarity – complex data, simple answers, smarter decisions.

India, 4th December 2025 – New Delhi: RateGain Travel Technologies Limited (RateGain), a leading provider of AI-powered SaaS solutions for travel and hospitality, today announced the launch of **Rev-AI Clarity**, an intelligent revenue assistant built specifically for car rental operators as part of the Rev-AI product suite.

Designed for revenue and commercial teams, Rev-AI Clarity cuts through fragmented dashboards by turning complex demand, pricing, and performance data into clear, conversational insight. Revenue leaders can ask direct questions about recommended price, tomorrow's demand, pacing by city, or month-to-month performance, and receive concise narratives that highlight key drivers, risks, and opportunities within seconds.

Built on the Rev-AI engine, Rev-AI Clarity synthesizes historical bookings, forecast models, and live market signals into natural language responses, that present context-rich insights and recommended next steps replacing manual number analysis with instant, decision-ready intelligence.

Key capabilities include:

- Always-on revenue assistant delivering instant answers on demand, pricing, fleet, and channel performance
- Context-aware, explainable answers that combine bookings, forecasts, and market signals.
- Native integration with Rev-AI, connecting pricing, pace, and demand in a single conversational view.

“Rev-AI Clarity is an industry-leading step forward to help mobility providers grow their business” said **Sanchit Garg, EVP & GM, Rev-AI at RateGain**. “By putting an intelligent revenue assistant on top of our Rev-AI data and forecasting engine, we turn complex signals into instant, decision-ready answers on demand, so teams can price, plan fleet, and manage demand with far greater speed and confidence.”

Rev-AI Clarity is available as part of the Rev-AI suite for car rentals and integrates seamlessly with existing RateGain deployments, giving customers precise, transparent insight into every price recommendation.

For more information on **Rev-AI Clarity**, please visit rev-ai.io or contact your RateGain representative.
