RateGain Recognized as an Expedia Group 2026 Elite Connectivity Partner for the Fourth Consecutive Year

India, 17th March 2026: RateGain Travel Technologies Limited (NSE: RATEGAIN), a global provider of AI-powered technology solutions for the hospitality and travel industry, today announced that it has been recognized as an Expedia Group 2026 Elite Connectivity Partner, marking the fourth consecutive year the company has earned this status.

The Elite Connectivity Partner designation is awarded to a select group of providers demonstrating excellence in connectivity performance, technical reliability, and their ability to help lodging partners drive measurable growth across the Expedia Group marketplace. Maintaining this recognition for four consecutive years reflects the strength and consistency of RateGain's connectivity infrastructure in powering real-time hotel distribution at global scale.

As hotel distribution becomes increasingly dynamic, the need for fast, accurate rate and inventory synchronization has become critical to marketplace performance. To support this shift, RateGain continues to invest in AI-led innovations that strengthen connectivity performance. One such advancement is Agentic ARI, a next-generation availability, rates, and inventory management engine designed to autonomously optimize distribution updates by filtering redundant data and prioritizing real-time changes. By improving the speed and precision of updates, these capabilities help hotels maintain rate accuracy, improve responsiveness, and deliver more reliable booking experiences across demand channels.

Building on these advancements, RateGain's deep integration with Expedia Group enables lodging partners to deliver faster, more accurate rates and availability across 200+ global travel sites and 70,000+ distribution partners, expanding their reach and unlocking stronger revenue opportunities worldwide.

Bhanu Chopra, Founder and Managing Director, RateGain, said, "This recognition reflects the momentum of our partnership with Expedia Group and our focus on high-performance connectivity at scale. As distribution grows more dynamic, we're investing in AI-led capabilities that help hoteliers move faster, stay accurate in real time, and capture demand more efficiently—while delivering a consistent guest experience."

RateGain today connects 200,000+ properties to 700+ demand partners and processes 231+ billion ARI updates annually, enabling hotels to operate with greater agility and efficiency across global distribution channels.

About RateGain

RateGain Travel Technologies Limited is a global provider of AI-powered SaaS solutions for travel and hospitality that works with 13,000+ customers and 700+ partners in 160+ countries helping them accelerate revenue generation through acquisition, retention, and wallet share expansion.
