P R E S S R E L E A S E

Vadodara, Gujarat | 30 October 2026

Ratnaveer Precision Engineering Limited, a leading manufacturer and exporter of stainless-steel washers and precision fasteners, announced its unaudited consolidated financial results for the second quarter ended 30 September 2026. The quarter's performance reflects the Company's operational progress across its diversified manufacturing verticals, supported by its established export presence and strategic expansion into electronics-grade materials through its integrated FR-4 Copper Clad Laminate (CCL) project.

KEY BUSINESS UPDATES

● Successful Completion of ₹329.99 Crore Rights Issue

The Company successfully completed its ₹329.99 crore Rights Issue with an overall subscription of 1.11x, allotting 1,24,99,669 equity shares at ₹264 per share.

● Integrated FR-4 CCL Project Update

The integrated FR-4 CCL project has achieved approximately 75% completion. Machinery is expected by mid-November 2026, followed by installation and trial runs. Phase 1 will have an annual production capacity of 15.84 lakh sheets.

MANAGEMENT COMMENTARY

Mr. Vijay R. Sanghavi, Managing Director, Ratnaveer Precision Engineering Limited, said:

"We are pleased with the Company's performance during Q2 and H1 FY27. Revenue from operations grew 35.46% YoY to ₹3,872.37 million, while EBITDA increased 38.94% to ₹421.62 million and PAT grew 56.14% to ₹240.97 million in Q2 FY27. For H1 FY27, revenue increased 27.50% to ₹7,018.72 million and PAT grew 39.35% to ₹423.34 million, reflecting the strength of our manufacturing operations and customer relationships.

We are making steady progress on our integrated FR-4 Copper Clad Laminate project, which has achieved approximately 75% completion, with machinery expected by mid-November 2026. With India's domestic CCL market largely dependent on imports and increasing demand from electronics, EVs, telecom and defence sectors, we see significant long-term opportunities in this segment. Going forward, our focus remains on timely project execution, commissioning of the facility and strengthening our existing manufacturing businesses to build a diversified manufacturing platform and create sustainable long-term value."

OUTLOOK

The Company remains focused on strengthening its existing manufacturing verticals while expanding into electronics-grade materials through its integrated FR-4 Copper Clad Laminate (CCL) project. With increasing demand from electric vehicles, 5G infrastructure, consumer electronics and defence, alongside over 90% of domestic CCL demand currently being met through imports, the Company sees significant opportunities in domestic manufacturing and import substitution.

The planned investment of ₹338 crore over three years in the CCL project, supported by approval under the Electronics Component Manufacturing Scheme (ECMS), marks an important milestone in the Company's diversification strategy. Going forward, the Company aims to leverage its established manufacturing capabilities and the growing electronics ecosystem to expand its presence in this emerging segment and create long-term value.

ABOUT RATNAVEER PRECISION ENGINEERING LTD

Ratnaveer Precision Engineering Limited, established in 2000 and headquartered in Vadodara, Gujarat, is a leading manufacturer and exporter of stainless-steel washers and precision fasteners. The Company's diversified product portfolio includes washers, fasteners, tubes and pipes, finishing sheets and sheet metal components.

With five integrated manufacturing facilities, over 800 employees and an established presence across 31 countries, the Company serves customers across automotive, industrial, infrastructure and other specialised applications. The Company is also expanding into electronics-grade materials through its integrated FR-4 Copper Clad Laminate (CCL) project.

SAFE HARBOUR

This press release contains forward-looking statements based on management's current expectations and assumptions, which are subject to risks and uncertainties including capacity utilisation, commodity prices, customer demand and receipt of approvals. Actual results may differ materially, and the company undertakes no obligation to update these statements. The financial results are unaudited and subject to limited review by the statutory auditors, and should be read with the results and notes filed with the stock exchanges. This document does not constitute an offer or invitation to subscribe to any securities of the company.
