EPS	**9.13**	**7.37**	**-**	**5.52**	**-**	**12.88**

Commenting on the financial performance, Mr. Sarthak Soni, Managing Director said," *We have delivered our highest-ever half-year PAT, achieving nearly 71% of FY26's full-year profit in just six months. With PAT rising 23% year-on-year and 67% over the preceding half year, Rajputana Biodiesel has entered H2 FY27 with stronger earnings momentum. Profit growth significantly outpacing revenue growth, coupled with expanding margins, reflects the successful implementation of de-bottlenecking initiatives and technological upgrades across our production systems, resulting in improved operational efficiency and profitability.*

Our ambition is to build a substantially larger and more profitable one stop solution bioenergy company. We intend to drive higher utilisation of our manufacturing capacities, deepen customer

relationships and translate our operating capabilities into stronger earnings. Alongside biodiesel, our expansion plans across compressed biogas and biomass pellets are aimed at developing additional engines of growth resulting into A ONE STOP BIOENERGY SOLUTION COMPANY. We are pursuing this next phase with confidence, a sharper focus on execution and a clear commitment to increasing profitability and long-term institutional growth."

About Rajputana Biodiesel Limited:

Rajputana Biodiesel Limited is engaged in the manufacturing of biodiesel and its by-products and is one of the key players across the state of Rajasthan in India. The Company focuses on green energy (biofuel) and sustainable development of renewable resources through the adoption of environmentally friendly technology.
