Financial Highlights H2 FY'26 and FY26

Rajputana Biodiesel Limited reports landmark FY26 results;

H2 FY26 PAT surges 340.96% YoY

Strongest Yearly and Half-yearly performance in the company's history

Jaipur, May 25, 2026 – Rajputana Biodiesel Limited, one of India's emerging renewable energy companies with a strong presence in the biodiesel sector, announced its audited consolidated financial results for the half year and financial year ended March 31, 2026. The Company delivered its strongest annual performance to date, with total income increasing by 79.41% to ₹123.09 Crore and Profit After Tax (PAT) growing by 77.69% to ₹10.52 Crore as compared to the previous financial year.

H2 FY26 continued to demonstrate strong operational momentum, supported by improved execution capabilities, enhanced production infrastructure, and sustained demand across the biodiesel value chain, laying a strong foundation for future growth.

FY26 vs FY25 highlights

Total income increased by
79.41%

PBT increased by
78.27%

PAT increased by
77.69%

(all figures in ₹ Lakhs, consolidated basis)

H2FY26 vs H2FY25 highlight

Total income increased by
175.47%

PBT increased by
259.46%

PAT increased by
340.96%

(all figures in ₹ Lakhs, consolidated basis)

Management Commentary

“FY26 has been a landmark year for Rajputana Biodiesel Limited, marked by strong financial performance, strategic expansion, and meaningful progress in strengthening our integrated renewable energy platform. We delivered robust growth across key financial parameters, with revenue nearly doubling and profitability expanding significantly, reflecting improved operational efficiency and prudent financial management.

The momentum in the second half of the year particularly highlights the operating leverage within our business, driven by disciplined execution, improved capacity utilisation, and a supportive regulatory environment, all of which are accelerating the adoption of biofuels in India.

A key strategic milestone this year was the formation of Rajputana Agro LLP, which strengthens our long-term renewable energy vision through dedicated energy-crop plantations. This initiative creates a reliable feedstock backbone for our planned entry into the Compressed Biogas (CBG) segment and positions us as an integrated renewable energy player across solid, liquid, and gaseous fuels.

As we move into FY27, we remain focused on scaling our operations, enhancing efficiencies, expanding our renewable energy footprint, and creating long-term value for all stakeholders through sustainable growth.”

**Mr. Sarthak Soni, Managing Director & CFO,
Rajputana Biodiesel Limited**

About Rajputana Biodiesel Limited:

Rajputana Biodiesel Limited is engaged in the manufacturing of biodiesel and its by-products, and is one of the key players across the state of Rajasthan in India. The Company focuses on green energy and sustainable development of renewable resources (biofuel) through the adoption of environmentally friendly technology. Its manufacturing unit at Phulera (Jaipur), Rajasthan has an installed capacity of producing 90 KL Bio Diesel per day from multi feedstock. It has a subsidiary Company in the name of Nirvaanraj Energy Private Limited, situated at Meerut, Uttar Pradesh which has an installed capacity of producing 80 KL Bio Diesel per day from multi feedstock.
