Former Tata Technologies CEO sells share

NEW DELHI: The former Chief Executive Officer (CEO) and Managing Director of Tata Technologies -- Patrick Raymond McGoldrick -- has reduced his stake in the company by selling shares worth about Rs 165 crore through block deals on the BSE. In addition, McGoldrick sold 2.1 million shares which is equivalent to a 0.51 per cent stake in the Tata Group company in four tranches on Friday. While shares were offloaded at an average price of Rs 785 apiece making the total transaction value Rs 164.85 crore.

After that, McGoldrick's holding in Tata Technologies fell to 0.62 per cent from 1.13 per cent. However, the shares were acquired by institutional investors including ICICI Prudential Mutual Fund, Kotak Mahindra Mutual Fund, 360 One Asset Management and Camelian Asset Management & Advisors.

RBI allows LIC to acquire 9.99% ICICI Bank stake**LIC asked to acquire ICICI Bank state within a year from approval**

THE SAVERA TIMES NEWS NETWORK

NEW DELHI: The Reserve Bank of India (RBI) has approved state-owned insurer Life Insurance Corporation of India (LIC) to acquire an aggregate holding of up to 9.99 per cent of the paid-up share capital or voting rights in ICICI Bank, the private lender said in a regulatory filing on Saturday.

ICICI Bank said it received a copy of the RBI's approval letter -- dated September 4 -- at 9:09 pm on the same day. The approval allows LIC to acquire the stake within one year from the date of the RBI approval letter, failing which the approval will stand cancelled.

However, the approval is subject to certain conditions, including compliance with

The approval follows a similar clearance granted by the RBI last month.

applicable statutory and regulatory provisions, the bank said. Moreover, the central bank's nod does not mean LIC has immediately increased its holding in ICICI Bank to 9.99 per cent.

Any acquisition will have to be undertaken

in accordance with the conditions laid down by the central bank and other applicable regulatory norms, according to the private bank. In a separate development last month, RBI had approved LIC's application to acquire up to 9.99 per cent of HDFC

Bank's paid-up share capital or voting rights. HDFC Bank had said LIC held 4.11 per cent of its total share capital as of August 14.

The approval for ICICI Bank gives LIC flexibility to increase its holding in the private sector lender, subject to applicable regulatory and statutory requirements.

Shares of LIC on Friday ended at Rs 415.25, a decrease of more than one per cent on the BSE.

The stock has touched a 52-week high of Rs 468.30 and a 52-week low of Rs 361, according to the exchange.

While ICICI Bank shares closed at Rs 1,423, down 0.14 per cent on the aforesaid exchange. The stock recorded a 52-week high of Rs 1,479.90 and a 52-week low of Rs 1,187.55.

Decolonisation means wider archives: FM

THE SAVERA TIMES NEWS NETWORK

NEW DELHI: India is now self-assured and no longer waits for anyone else's permission to study and understand its own heritage, Union Finance Minister Nirmala Sitharaman said on Saturday calling for a broader and more rigorous approach to the country's intellectual history.

Addressing the FICHR Annual History Prize Awards Ceremony & the Dr SL Bhyrappa Memorial Lecture, here, FM Sitharaman said India was revisiting its inscriptions, studying its maritime trade history and returning to its contributions to mathematics while presenting these stories with both "real pleasure" and "real precision".

The finance minister said this process should form the essence of decolonisation, which cannot merely mean replacing one prescribed

Nirmala Sitharaman

textbook with another. "It has to mean a wider archive, more languages, harder questions, and a much larger circle of scholars who actually get heard," FM Sitharaman said.

Reflecting on the contribution of Kannada writer and thinker Dr SL Bhyrappa, FM Sitharaman said he never sought to mobilise an army of followers but instead focused on refining the way human beings perceive truth.

Adani Defence, Indo-Russian Rifles ink 5-yr pact for AK-203 rifles

THE SAVERA TIMES NEWS NETWORK

NEW DELHI: Adani Defence & Aerospace has signed a five-year agreement with Indo-Russian Rifles Private Limited (IRRL), the India-Russia joint venture manufacturing AK-203 assault rifles in India, to supply indigenous 7.62x39 mm small-calibre ammunition for the programme, it was announced on Saturday.

Under the agreement, Adani Defence will supply 7.62x39 mm ammunition for the AK-203 for five years. The arrangement provides an Indian source for the ammunition required for the programme and supports continuity of supply during the contract period.

The agreement brings together AK-203 rifle production by IRRL and ammunition production by Adani Defence, creating an integrated supply chain in India. It further strengthens

domestic capabilities across the small-arms supply chain and supports the Atmanirbhar Bharat objective in defence manufacturing. IRRL was incorporated in 2019 under an India-Russia intergovernmental agreement to manufacture AK-203 assault rifles for the Indian Armed Forces.

Its manufacturing facility is located at Korva in Amethi, Uttar Pradesh. The joint venture has Indian shareholders

Advanced Weapons and Equipment India Limited and Munitions India Limited, along with Russian shareholders Concern Kalashnikov and Rosoboronexport.

The Ministry of Defence has identified IRRL as the joint venture established for indigenous production of the AK-203. A contract for 6,01,427 AK-203 rifles was signed with IRRL in December 2021, with the rifles to be produced at Korva.

Gold down 3% on weekly basis

NEW DELHI: Gold prices dipped nearly 3 per cent on a weekly basis due to repricing of US monetary policy and a surge in crude oil raising inflation concerns. On Friday, MCX gold futures (October) inched up 0.03% while MCX silver futures (September) shed 0.07%. The yellow metal stood at Rs 1,52,815 while the white metal stood at Rs 2,37,500. The price of 10 grams of 24-carat gold was at Rs 1,54,884 on Friday down from Rs 1,59,578 seen last Friday, according to data published by the IBA. Precious metals touched a three-month high, a midweek rebound after sharp sell-off and a final pullback on Friday as markets reacted to a mix of geopolitical tensions, shifting Federal Reserve expectations and stronger-than-expected US labour data. A blockbuster August jobs report on Friday reversed much of the dovish shift from the US Federal Reserve in a single session, a market participant said.

RBI skips Rs 7 lakh crore excess liquidity

THE SAVERA TIMES NEWS NETWORK

MUMBAI: The Reserve Bank of India (RBI) is stepping up efforts to absorb surplus liquidity from the banking system as excess cash reaches record levels following a surge in foreign-currency inflows from overseas Indians.

The central bank will conduct a 30-day variable-rate reverse repo auction for Rs 7 lakh crore (\$74.1 billion) on Monday, according to a statement issued by the RBI. The move marks a shift towards a longer-duration liquidity absorption operation compared with recent auctions of up to 15 days.

The longer tenor will allow the RBI to keep surplus funds out of the banking system for an extended period, helping it exert greater control over short-term money-market conditions. However, the

reverse repo mechanism remains relatively less forceful than some other liquidity-management tools because banks can decide how much money they want to park with the central bank.

India's banking system is currently facing an unprecedented liquidity surplus, with excess cash estimated at around Rs 10.5 lakh crore, according to a Bloomberg Economics measure. The surplus has built up after the RBI converted large amounts of foreign currency raised by banks through deposits from overseas Indians into rupee liquidity.

Govt tightens e-bus localisation norms

MUMBAI: The Centre has tightened domestic manufacturing requirements for electric buses and trucks under the PM E-DRIVE scheme, mandating that key traction motor and controller components be manufactured in India from April 1, 2027, a move aimed at deepening localisation of critical electric-vehicle technology.

The Ministry of Heavy Industries, through two notifications dated September 3, amended the Phased Manufacturing Programme (PMP) for M2/M3 e-buses and N2/N3 e-trucks under the PM Electric Drive Revolution in Innovative Vehicle Enhancement (PM E-DRIVE) scheme. The changes will take effect from their publication in the Official Gazette.

FPI inflows in India remain positive in Sept

THE SAVERA TIMES NEWS NETWORK

INDIA: Foreign portfolio investor (FPI) flows into Indian equities are showing signs of turning more consistent, with early indications pointing to continued net inflows in September after positive flows in July and August.

FPIs have remained net buyers of Indian equities during the first four days of September, with net inflows standing at around Rs 2,374 crore. Commenting on it, Dr V K Vijayakumar, Chief Investment Strategist, Geotix Investments Limited said the tapering of the chip trade and FPIs turning consistent sellers in semiconductor stocks in South Korea and Taiwan have played an important role in redirecting foreign capital towards India.

He said the resilience of the Indian economy, reflected in the stronger-than-expected 7.8 per cent GDP growth recorded in the first quarter of FY27, could further support foreign investor interest.

Better-than-expected first-quarter earnings and the recent stabilisation of the rupee are also positive factors that could help sustain FPI inflows into Indian markets.

A major factor supporting the rupee has been the large inflow of foreign currency through the FCNR(B) deposit scheme.

Assocham lauds record forex reserves

THE SAVERA TIMES NEWS NETWORK

NEW DELHI: Business chamber Assocham on Friday welcomed India's foreign exchange reserves reaching a record high of \$740.80 billion, as of August 28, reflecting a robust external sector and strengthening confidence in the Indian economy.

The reserves increased by \$11.48 billion during the week, marking the ninth consecutive weekly rise. Foreign Currency Assets, the largest component of India's reserves, crossed the \$600 billion milestone, rising by \$9.34 billion over the previous week. Gold reserves, the second-largest component, stood at \$116.41 billion. Assocham President Nirmal K. Minda said that the record

accumulation of foreign exchange reserves provides a strong cushion against global economic uncertainties and external shocks.

A robust forex position will contribute to greater currency stability, strengthen macroeconomic resilience, support economic growth and enhance investor confidence, he said.

The strong reserve position also improves India's capacity to manage external financing requirements, strengthens the country's global financial standing and enhances its international competitiveness, Minda added.

It provides greater policy space to navigate volatility in global financial markets, commodity prices and capital flows, the industry body said.

An increase in the foreign exchange reserves reflects strong fundamentals of the economy and gives the RBI more headroom to stabilise the rupee when it turns volatile.

A robust forex kitty enables the RBI to intervene in the spot and forward currency markets by releasing more dollars to prevent the rupee from going

into a free fall. Meanwhile, India's current account deficit (CAD) stood at \$4.2 billion in the April-June quarter (Q1) of the current financial year, holding steady at 0.5 per cent of GDP despite the rising prices of oil, LPG and fertilisers in the global market due to the West Asia crisis, according to data released by the RBI on Tuesday. The CAD in the same quarter of the previous financial year was estimated at 0.4 per cent of GDP.

Net services receipts increased to \$51.6 billion in Q1 of 2026-27 from \$47.9 billion in the first quarter of the previous financial year as services exports have risen on a year-on-year basis in major categories such as computer services, other business services and transportation services.
