MEDIA RELEASE:

RInfra SPV Commissions 6th Transmission Line in Western Grid

- **220 km Solapur – Kolhapur transmission line commissioned**
- **Invests Rs 1400 crore to execute 1500 km transmission line**
- **Project to facilitate flow of 4000 MW power from Eastern to Western region**
- **RInfra won this project through International competitive bidding**

Mumbai, July 4, 2012: Reliance Infrastructure Limited (RInfra), part of the Reliance Group, commissioned another 400 kV Double Circuit Transmission line between Solapur and Kolhapur in Maharashtra through its wholly owned subsidiary Western Region Transmission (Maharashtra) Private Limited (WRTM).

220 Kms long, 400 kV double circuit transmission line is the sixth line under the Western Regional System Strengthening (WRSS) scheme that will connect two key business and tourists centers of Western Maharashtra and will boost the economic growth of the region.

Commenting on the development, **Mr. Alok Roy, CEO, Reliance Power Transmission Limited** said, ***"We are proud to announce the commissioning of sixth transmission line, where getting Right of Way was a big challenge. Out of nine, our six transmission lines have been successfully commissioned. We are committed to completing the project by FY13 that will facilitate 4000 MW power flow from eastern region to the western region of the country. This would benefit all constituent utilities and relieve grid congestion in the western region"***

WRSS is India's first ever 100% privately owned transmission project on Build, Own, Operate and Maintain (BOOM) basis having 1500 Kms length, and being executed at a cost of Rs 1,400 crore. The project was awarded to Reliance Infrastructure through tariff based International competitive bidding process.

RELIANCE

RInfra's wholly owned subsidiary, RPTL has already commissioned first five transmission lines of the project, viz. Solapur – Karad, Limdi – Ranchodpura, Lonikand – Kalwa, Solapur – Parali and Vadavi - Kansari. All the transmission lines have been commissioned in record time.

RInfra, at present, is executing five transmission projects across the country with total outlay of over Rs 6,600 crore. The Company owns two Ultra Mega Transmission Projects, making RInfra as the largest developer of transmission projects in private space.

Reliance Infrastructure Limited:

Reliance Infrastructure Limited (RInfra) is the largest infrastructure company developing projects, through various Special Purpose Vehicles, in several high growth areas in Infrastructure sector i.e. Roads, Metro Rail, Airports, etc. The Company is also a leading utility company having presence across the value chain of power businesses i.e. Generation, Transmission, Distribution, EPC and Trading.

The Company is developing two metro rail projects in Mumbai and operating Airport Metro Express in Delhi; awarded twelve road projects with total length of 1,000 Kms; operating and maintaining five airports in Maharashtra and developing two cement plants of 5 millions tons each in Maharashtra and Madhya Pradesh.

RInfra generates 940 MW of power through its five power stations, distributes power to over 5.6 million consumers in Mumbai and Delhi; and is developing five transmission projects including the first Independent Private Transmission project in India.

RInfra also provides Engineering, Procurement and Construction (EPC) for developing power and road projects and currently has an order book of Rs. 17,280 crore.
