Commenting on shifting of manufacturing facility and operation lines from Daman to Pune plant, Mr. Rahul Kejriwal, Director & CFO, Remsons Industries Ltd. said, “We are pleased to announce the shifting of our manufacturing and operation lines from our Daman plant to the newly commissioned Pune plant, which is a strategic and important milestone for Remsons Industries Ltd. The consolidated plant manufacturing lines at Pune plant will result in better control of the overall operations on the one hand & on the other, it will double the production capacity, in comparison to the Daman Plant.

Our manufacturing facility at Daman consisted of small manufacturing units situated at different locations, while the new Pune plant is a state-of-the-art integrated manufacturing facility.

Amit Srivastava, Group CEO at Remsons, said, “Having a plant of this capability in Pune will give us strategic locational advantage, access to a larger talent pool, since Pune is the major hub for Automobile and Component Manufacturing.

It will not only help Remsons in expanding business with its existing customers, it will also aid in increasing the customer base. Most importantly it will bring us closer to many of our Automobile OEM Customers in the region.

Many of the new products that would fuel the future growth of the Company, would be manufactured from the Pune plant.

The newly commissioned plant at Pune is a greenfield project with state- of- the- art integrated facilities, equipped with latest technologies, allowing us to design, develop and expand our product portfolio, catering to the evolving needs of our customers and the industry”

Photos of the new manufacturing facility at Pune are as follows:

About Remsons Industries Limited

Remsons Industries Limited (Remsons) [BSE: 530919, NSE: REMSONSIND] is an Indian and UK based OEM manufacturer supplying to automotive OEM's and majorly exporting to UK, Europe, North American, Brazil and SAARC countries. The company specializes in manufacturing and designing of auto control cables also known as Bowden cables, flexible shafts, gear shifters both for dash and floor mounted, and push pull cables for Passenger Vehicles, Light Commercial vehicles, Heavy Commercial vehicles. Remsons has indigenously developed gear shift cables, dash mount brake assembly and push pull cables. The company has marketing offices in USA, Italy & UK, including a state-of-the-art manufacturing facility in UK, to cater to the international clients and provide technical support.
