Net FDI rises in FY26 on higher gross inflows; portfolio investment flows weaken

Our Bureau
Chennai

Net foreign direct investment (FDI) into India rose sharply to \$7.6 billion in FY26, with March 2026 being the second consecutive month of positive net inflows. Net FDI was \$959 million in FY25, as per RBI data. The net FDI was driven by gross investment inflows rising to \$94.5 billion in FY26 compared to \$80.6 billion in FY25. Repatriation rose marginally to \$53.6 billion from \$51.5 billion. However, outward direct investments by Indian companies rose to \$33.3 billion from \$28.2 billion in FY25.

Increased inflows lift net FDI

	FY25	FY26
1 Direct investment into India (in \$ billion)	29.1	40.9
2 Direct investment by India (in \$ billion)	28.2	33.3
Net FDI (1-2)	0.9	7.6

Source: RBI

"During 2025-26, both gross and net foreign direct investment inflows were higher than the previous year. In March, net FDI remained positive for the second consecutive month, despite a deceleration in gross FDI on account of relatively low repatriation and outward FDI. The rupee depreciated in May, with renewed geopolitical tensions and elevated crude oil prices

exerting pressure," the RBI said in its May Bulletin. However, the positive rise in net foreign direct investment was overshadowed by a steep drop in foreign investment inflows. With the West Asia war straining the rupee and forex reserves of the country, total foreign investment flows (both direct and portfolio investment) recorded an outflow of \$11.7 billion in March

2026, the first month of the US-Iran crisis. In March 2025, the corresponding foreign investment flows witnessed an inflow of \$7.3 billion. For the full year FY26, foreign investment flows recorded an outflow of \$9 billion compared to an inflow of \$4.5 billion in FY25.

India's near-term outlook somewhat clouded by supply-side pressures, says RBI Bulletin

Press Trust of India
Mumbai

India's near-term outlook is somewhat clouded by supply-side pressures, and the spillover impact of the West Asia conflict on domestic inflation needs to be monitored, according to the RBI Bulletin. While the global economy remained shadowed by uncertainties in West Asia, an article in the Bulletin said domestic economic activity exhibited resilience in April. "The conflict in West Asia continued to exert pressure on commodity markets, global trade flows and supply chains, contributing to the

volatility in financial markets. India has entered this phase from a position of macroeconomic strength," the article on the state of the economy said. "Domestic demand continues to be the key driver of growth. However, the near-term outlook is somewhat clouded by supply-side pres-

ures. Although headline inflation remains firmly within the tolerance band, the pass-through to domestic prices needs to be monitored," it said.

INFLATION & TRADE
Retail inflation rose to 3.5 per cent in April, driven mainly by food inflation. Against the backdrop of the Iran war, the article said constricted shipping routes and trade flows increased supply-chain pressures to their highest levels since 2022. Prices of commodities, for which the Strait of Hormuz is a critical transit route, remained elevated in April and early May. Base metal prices, includ-

ing aluminium, zinc and nickel, rose due to supply disruptions and higher fuel costs. "Financial conditions, crude oil prices and capital flows continue to pose challenges to the external sector outlook," it said. The merchandise trade deficit widened in April 2026 over March 2026 primarily on account of crude oil and gold imports. Nevertheless, robust services exports, positive net FDI flows, foreign exchange reserve buffers and a number of proactive policy measures undertaken by the government and the Reserve Bank are likely to cushion the economy against external headwinds, it said.

AP to rope in anchor investor for ₹29,000-cr mega shipbuilding cluster

G Naga Sridhar
Amaravati

The Andhra Pradesh government is in the process of roping in a global major as an anchor investor for the ₹29,000-crore mega shipbuilding cluster coming up at Dugarajapatnam in Tirupati district. With a 1,053-km-long coastline, Andhra Pradesh is betting big on developing its maritime economy. South Korea's HD Hyundai, Samsung and Japan's

MT Krishna Babu, Special Chief Secretary, Infrastructure and Investments

Imbari are top global players in the shipbuilding industry. An announcement on

the anchor investor is likely soon. A special purpose vehicle (SPV) has already been formed for the mega shipbuilding cluster with a capacity of 1.2 million tonnes. The total investment has been pegged at ₹29,253 crore. While the government will take care of land and marine infrastructure development worth ₹5,289 crore, the anchor investor will develop the core shipbuilding cluster with an investment of ₹23,964 crore, MT Krishna

Babu, Special Chief Secretary, Infrastructure and Investments, Andhra Pradesh Government, told *businessline*. **MARITIME ECOSYSTEM** The proposed cluster, with an estimated investment of about ₹29,253 crore, seeks to create a globally competitive commercial shipbuilding hub and develop an integrated maritime ecosystem, the official said. According to Abhishek Kumar, Chief Executive Officer, Andhra Pradesh Mari-

time Board (APMB), the process of acquiring 2,170 acres has already commenced. A major extent of this land is in Tirupati while a small portion of it will extend into Nellore district. The preparation of a detailed project report is also underway. The establishment of a mega shipbuilding cluster is part of the efforts to position Andhra Pradesh as a hub for global shipbuilding, aligning with the Maritime India Vision 2030 and Maritime Amrit Kaal Vision 2047.
