(Investment Manager – REPL)

**Background** 

Small and Medium Real Estate Investment Trusts (SM REITs) are a new asset class that allows investors to access properties that generate rent.

**How it Works** 

SM REITs invest in properties like office buildings, retail malls, hotels, hospitals etc. Investors receive rental income quarterly and capital appreciation when the property is sold.

**How It is Structured** 

SM REITs have a trustee who holds the assets in trust for the benefit of the unit holders. The trustee is responsible for ensuring that the assets are properly ringfenced, bank accounts are segregated, and property documents are securely maintained.

# Operating Profit Margin & Net Profit Margin

# Operating Profit Margin & Net profit Margin have Shown diminution in the Q2 FY'26 with Comparison to Previous Quarters

#### **Key and Primary Reason:**

- ★ Strategic Support by REPL as Investment Manager to SM REIT: As an Investment Manager of SM REIT, REPL is proactively investing in the foundational and support infrastructure required to establish and scale the REIT platform. These upfront investments are driving rapid operational readiness, regulatory compliance, and a strong project pipeline. Upon the formal launch of REIT schemes under the Special Purpose Vehicle (SPV), all operational costs will transition to the SPV's Profit & Loss Account, ensuring full recovery. This model delivers financial transparency, operational efficiency, and alignment of long-term value creation with investor interests.
- \* Margins were impacted by initial mobilization expenses & resource deployment incurred upfront for large-scale government projects. These are strategic investments expected to generate steady revenue over the project lifecycle.
- ★ Consecutive vendor work has resulted into lower margins and Profits in the current quarter compared to previous Quarters, but is not a regular phenomenon for the business.
- ★ Government projects often involve milestone-based billing and delayed approvals, creating a timing mismatch between incurred costs and recognized revenues, thereby compressing margins in the short term.

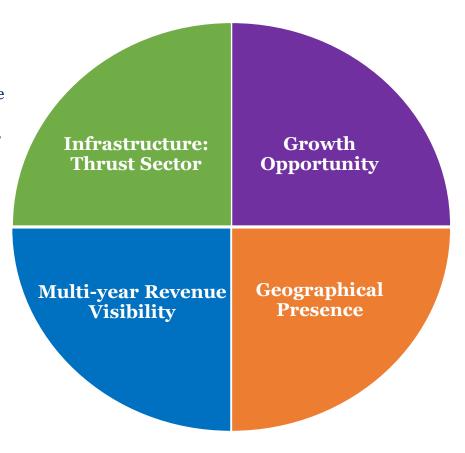

32

- The Union Budget for 2025-26 has increased the capital expenditure allocation, reaching Rs 11.21 lakh crore equivalent to 3.1% of the country's GDP.
- REPL has been associated with most of the large scale flagship programs such as PMAY, AMRUT, Smart City Mission, JJM, Skill India etc.

- Multi-year revenue visibility provides a clear forecast of our financial inflows over the coming years, enhancing our ability to plan and allocate resources efficiently.
- Long-term financial clarity allows us to make informed strategic decisions and invest confidently in growth opportunities

- Continuously explores growth opportunities by forming strategic Joint Ventures (JVs)
- The use of distributive technology -GIS, BIM, and ICT at various stage of the consultancy to achieve scalability.
- Capitalize on opportunity of huge Infrastructure development in Country

- Company has diverse regional presence across pan India
- Government policies, including focus on affordable housing, smart city projects, and tax deductions on housing loans
- Large talent pool of the consultant for providing critical technical efficiency at various location of the country
